Introduction

Under the umbrella of the Virginia Retirement System, Pension, Other Postemployment, and Line of Duty Benefits are provided to hundreds of thousands of plan members. This Appendix provides descriptions of actuarial assumptions, serving as a companion to the following actuarial valuations:

- Line of Duty Act Fund
- Virginia Retirement System – Political Subdivisions (individual valuations)
- Virginia Retirement System – State, Teachers, VaLORS, SPORS, JRS
- Virginia Retirement System – Other Postemployment Benefits (Group Life Insurance, Health Insurance Credit Program, Virginia Local Disability Program, Virginia State Disability Program)
- Virginia Retirement System – Other Postemployment Benefits – Political Subdivisions (Health Insurance Credit Program)

An actuarial valuation is the mathematical model that estimates plan liabilities and employer contribution requirements for purposes of funding the plans and for determining plan costs for Governmental Accounting Standards Board (GASB) purposes. This model is updated annually to adjust the liabilities and contribution requirements for changes in member census and plan features and to reflect actual plan experience in the process.

Each annual actuarial valuation uses current membership and financial data. In addition, an actuarial valuation requires the use of a series of assumptions regarding uncertain future events. The assumptions and methods used in the June 30, 2022 Actuarial Valuations were adopted by the Retirement Board on April 20, 2021. The economic assumptions used in the valuations are a 6.75% investment rate of return and a 2.50% inflation assumption. The demographic assumptions used in the valuations are based on the results of a study of plan experience that covered the period from July 1, 2016 through June 30, 2020. All actuarial assumptions are estimates of future experience. The rationale for the assumptions is described in this Appendix as well as the most recent experience study report.

The current economic and demographic assumptions are reasonable for the purposes of the June 30, 2022 annual actuarial valuations.

There have been no changes in the actuarial cost method, under which normal cost amounts are developed as a level percentage of projected payroll. The Board of Trustees updated the Funding Policy most recently on October 18, 2022. The actuarial valuation computations were made by or under the supervision of a Member of the American Academy of Actuaries (MAAA) who meets the U.S. Qualification Standards to render the actuarial opinions in the valuation.

Details regarding actuarial assumptions and actuarial methodology follow this section.

Benefit Provisions applicable to all VRS pension plans unless otherwise specified

Employee	Any teacher, state employee, officer, or employee of a locality participating in the Retirement System. Covered employment is a full-time permanent, salaried position with an employer that participates in VRS. Some part-time permanent (typically more than 80% of the hours of comparable full-time permanent positions), salaried state positions are also covered.
Member	Any person included in the membership of the Retirement System
Plan 1	Members hired before July 1, 2010 with at least 60 months of creditable service as of January 1, 2013.
Plan 2	Members hired on or after July 1, 2010, or members hired prior to July 1, 2010 and not having at least 60 months of creditable service as of January 1, 2013.
Hybrid	Members hired (or Judges appointed to an original term) on or after January 1, 2014 or by irrevocable participant election prior to April 30, 2014. There is no Hybrid Plan for members of SPORS, VaLORS, and certain optional retirement plans.
Creditable Service	Service as an employee rendered while a contributing member of the Retirement System (membership service). Service also includes prior service, certain purchased service or service credit for accumulated sick leave. § 51.1-142.2
Creditable Compensation	The full compensation payable annually to an employee working full time in a covered position.

Summary of Plan Provisions

Virginia Retirement System

Average Final Compensation (AFC)

Plan 1: The average annual creditable compensation of a member during the 36 highest consecutive months of creditable service or during the entire period of creditable service if less than 60 months.

Plan 2 and Hybrid: The average annual creditable compensation of a member during the 60 highest consecutive months of creditable service.

There are certain limitations based on increases in the last four years of employment. § 51.1-152

Forms of Payment Upon Retirement

Monthly benefits are payable for the life of the retiree. If the payments do not exceed the member's contributions plus interest, determined as of the date at retirement, the balance will be paid in a lump sum to the member's beneficiary. Optional forms of payment are available.

Member Contributions

Plan 1 and Plan 2: 5% of creditable compensation.

Hybrid: Defined Benefit plan: 4% of creditable compensation
Defined Contribution plan: 1% of creditable compensation required.

Additional voluntary member contributions up to 4% of creditable compensation may be made. The employer makes a mandatory 1% contribution to the defined contribution component, and matches 50% of additional voluntary contributions, resulting in a total employer match of up to 2.5%.

Summary of Plan Provisions

State Employees

Normal Retirement

Plan 1

Eligibility: Age 65 with 5 or more years of creditable service.

Annual Benefit: 1.70% of average final compensation times years of creditable service.

Plan 2

Eligibility: Social Security Normal Retirement Age with 5 or more years of creditable service.

Annual Benefit: 1.70% of average final compensation times years of creditable service up to January 1, 2013 plus 1.65% of average final compensation times years of creditable service on or after January 1, 2013.

Hybrid

Eligibility: Social Security Normal Retirement Age with 5 or more years of creditable service.

Annual Benefit: 1.00% of average final compensation times years of creditable service.

Early Retirement

Plan 1

Eligibility: Age 50 with 10 or more years of creditable service, or age 55 with 5 or more years of creditable service.

Annual Benefit: Determined in the same manner as normal retirement benefit. A reduction applies if the member does not meet age 50 with 30 or more years of service at retirement.

Plan 2 and Hybrid

Eligibility: Age 60 with 5 or more years of creditable service.

Annual Benefit: Determined in the same manner as normal retirement benefit. A reduction applies if the member does not meet 30 or more years of service at retirement or if the member meets 30 or more years of service at retirement, but the sum of age at retirement plus creditable service at retirement is less than 90.

Summary of Plan Provisions

State Employees

Disability Retirement (Non-VSDP)

Eligibility: Permanently disabled state employees hired before January 1, 1999, who did not elect the Virginia Sickness and Disability Program (VSDP) and who are not covered by the Hybrid program.

Annual Benefit: For members with less than 5 years of service credit, the Minimum Guaranteed Benefit. A member who has 5 or more years of creditable service shall receive an annual retirement allowance during his lifetime and continued disability equal to the greater of the Minimum Guaranteed Benefit and 1.70 (1.65 for eligible Plan 2 members) percent of average final compensation multiplied by the lessor of (i) twice the amount of creditable service or (ii) the amount of creditable service the member would have completed at age 60. If a member has already attained age 60, the amount of creditable service at his date of retirement shall be used.

Minimum Guaranteed Benefit (Non-Work Related):

Not Eligible for Social Security Disability Benefits: 33-1/3% of AFC

Eligible for Social Security Disability Benefits: 50% of AFC

Minimum Guaranteed Benefit (Work Related):

Not Eligible for Social Security Disability Benefits: 66-2/3% of AFC

Eligible for Social Security Disability Benefits: 50% of AFC

Disability benefits commence immediately upon disability retirement and cease upon recovery or reemployment. Benefits are offset by Workers Compensation (if applicable). In addition, a refund of the member's contribution account is paid for a work-related disability.

Disability Retirement (VSDP)

Eligibility: Permanently disabled state employees who elected or are covered by the Virginia Sickness and Disability Program (VSDP) may receive a benefit payable from the VSDP plan until eligible for service retirement. A benefit payable commencing upon service retirement is payable from this plan.

Annual Benefit: An allowance equal to the normal retirement benefit based on creditable service including periods during which the employee received supplemental disability benefits for long-term disability from VSDP, and Average Final Compensation will reflect increases in the cost of living between date of disability and the date of retirement.

Summary of Plan Provisions

State Employees

Deferred Benefit

Eligibility: A member who terminates after 5 or more years of creditable service for which contributions have not been withdrawn.

Annual Benefit: Computed as regular retirement but based upon service and average final compensation at time of termination. Benefits may commence unreduced at age 65 or at age 50 with at least 30 years of service. Reduced benefits may commence at or after age 55 with more than 5 years of service or age 50 with at least 10 years of service.

Death Benefit: The beneficiary of a member who dies after leaving active service but before retiring is entitled to receive a lump sum distribution of the deceased member's contribution account.

Withdrawal (Refund) Benefit

Eligibility: A member who ceases to be an employee other than by death, retirement, or involuntary separation.

Benefit: Accumulated contributions with interest.

Death Benefit

Eligibility: Death while active or inactive, non-retired member.

Benefit: Upon the death of a non-vested member, a refund of the member's contributions and interest is paid. Upon the death of a vested member, if death occurs while in active service the qualifying survivor of the member is entitled to receive a benefit determined as though the member retired, elected the 100% Survivor Option, then died. If the member dies before reaching age 55 (age 60 for Plan 2 and Hybrid), the member is assumed to be 55 (age 60 for Plan 2 and Hybrid) for benefit calculation purposes. The qualifying survivor may elect to receive a refund of the contributions plus interest in lieu of the monthly benefit.

Work-Related Death Benefit: Upon death in service from a cause compensable under the Virginia Workers' Compensation Act, the qualifying survivor would receive 50% of AFC if beneficiary does not qualify for Social Security survivor benefits and 33 1/3% of AFC if beneficiary qualifies for Social Security survivor benefits. This benefit is reduced by Worker's Compensation. In addition, a refund of the member's contribution account is paid to the beneficiary.

Summary of Plan Provisions

Judicial

Creditable Service

Appointed or elected prior to July 1, 2010: Judges receive creditable service multiplied by a weighting factor as follows:

In Service as a Judge	Weighted Years of Service Factor
On or before December 31, 1994	3.5
On or after January 1, 1995	2.5

Appointed or elected on and after July 1, 2010: Judges receive creditable service multiplied by an age-weighted weighting factor as follows:

Age at Appointment or Election To Original Term	Weighted Years of Service Factor
Less than 45 years old	1.5
At least 45 years old, less than 55	2.0
At least 55 years old	2.5

Weighted service is used for all purposes under this plan, including determining a member's vested status, determining whether a member is eligible for retirement, computing early retirement reductions, and computing the amount of the benefit.

Qualifying service under provisions of VRS, SPORS and VaLORS are included as creditable service under JRS. § 51.1-303 Service purchased shall not be considered in determining the actuarial equivalent for early retirement nor considered twice in determining disability allowances.

Normal Retirement

Eligibility: Age 65 with 5 or more years of creditable service. The mandatory retirement age for judges is age 73.

Annual Benefit: 1.70% of average final compensation (AFC) times years of service, not to exceed 78% of AFC. For members appointed or elected on or after January 1, 2013, the benefit multiplier is 1.65% and for members appointed or elected on or after January 1, 2014, the benefit multiplier is 1.00%.

Virginia Law Officers

Normal Retirement

Eligibility: Age 60 with 5 or more years of creditable service.

Annual Benefit: For all employees hired on or after July 1, 2001, the benefit is calculated as 2.00% of average final compensation (AFC) times years of creditable service.

Employees hired before July 1, 2001, must make a one-time election to receive benefits under (i) or (ii) below:

- (i) 1.70% of average final compensation (AFC) times years of creditable service plus the temporary supplement.
- (ii) 2.00% of average final compensation (AFC) times years of creditable service and no temporary supplement.

Temporary Supplement:

A member who is hired before July 1, 2001, and who was either (i) hired on or after July 1, 1974 who has 20 or more years of hazardous service at retirement or (ii) a member hired before July 1, 1974 who is vested under SPORS/VaLORS benefits shall be eligible to receive an additional annual retirement allowance of \$14,664 payable from the date of retirement to age 65. This amount is adjusted biennially based upon increases in Social Security benefits during the interim period. The eligible employee must have made a one-time election to receive this supplement.

Early Retirement

Eligibility: Age 50 with 10 or more years of creditable service.

Annual Benefit: Determined in the same manner as normal retirement benefit. A reduction applies if the member has less than 25 years of service at retirement.

Disability Retirement (Non-VSDP)

Eligibility: A member hired prior to 1/1/1999 and who has declined VSDP coverage is eligible from the first day of employment.

Annual Benefit: For members with less than 5 years of service credit, the Minimum Guaranteed Benefit. A member who has 5 or more years of creditable service shall receive an annual retirement allowance during his lifetime and continued disability equal to the greater of the Minimum Guaranteed Benefit and 1.70 (1.65 for eligible Plan 2 members) percent of average final compensation multiplied by the lessor of (i) twice the amount of creditable service or (ii) the amount of creditable service the member would have completed at age 60. If a member has already attained age 60, the amount of creditable service at his date of retirement shall be used.

Minimum Guaranteed Benefit (Non-Work Related):

Not Eligible for Social Security Disability Benefits: 33-1/3% of AFC

Eligible for Social Security Disability Benefits: 50% of AFC

Minimum Guaranteed Benefit (Work Related):

Not Eligible for Social Security Disability Benefits: 66-2/3% of AFC

Eligible for Social Security Disability Benefits: 50% of AFC

Disability benefits commence immediately upon disability retirement and cease upon recovery or reemployment. Benefits are offset by Workers Compensation (if applicable). In addition, a refund of the member's contribution account is paid for a work-related disability.

Disability Retirement (VSDP)

Eligibility: Permanently disabled state employees who elected or are covered by the Virginia Sickness and Disability Program (VSDP) may receive a benefit payable from the VSDP plan until eligible for service retirement. A benefit payable commencing upon service retirement is payable from this plan.

Annual Benefit: An allowance equal to the normal retirement benefit based on creditable service including periods during which the employee received supplemental disability benefits for long-term disability from VSDP, and Average Final Compensation will reflect increases in the cost of living between date of disability and date of retirement.

Summary of Plan Provisions

Deferred Retirement

Eligibility: A member who terminates after 5 or more years of creditable service for which contributions have not been withdrawn.

Annual Benefit: Computed as regular retirement but based upon service and average final compensation at time of termination. Benefits may commence unreduced at age 60 or at age 50 with at least 25 years of service. Reduced benefits may commence at or after age 50 if the member is not eligible for an unreduced benefit.

Death Benefit: The beneficiary of a member who dies after leaving active service but before retiring is entitled to receive a lump sum distribution of the deceased member's contribution account.

Withdrawal (Refund) Benefit

Eligibility: A member who ceases to be an employee other than by death, retirement, or involuntary separation.

Benefit: Accumulated contributions with interest.

Death Benefit

Eligibility: Death while active or inactive, non-retired member.

Benefit: Upon the death of a non-vested member, a refund of the member's contributions and interest is paid. Upon the death of a vested member, if death occurs while in active service the qualifying survivor of the member is entitled to receive a benefit determined as though the member retired, elected the 100% Survivor Option, then died. If the member dies before reaching age 55, the member is assumed to be 55 for benefit calculation purposes. The qualifying survivor may elect to receive a refund of the contributions plus interest in lieu of the monthly benefit.

Work-related Death Benefit: Upon death in service from a cause compensable under the Virginia Workers' Compensation Act, the qualifying survivor would receive 50% of AFC if beneficiary does not qualify for Social Security survivor benefits and 33 1/3% of AFC if beneficiary qualifies for Social Security survivor benefits. This benefit is reduced by Worker's Compensation.

Statute

Code of Virginia, Title 51.1, Pensions, Benefits, and Retirement, Chapter 5. Group Insurance Program, §§ 51.1-500 to §51.1-514.

Eligibility Requirements

The following persons are eligible to participate in the group insurance program:

1. Teachers
2. State Employees
3. Members of the State Police Officers' Retirement System
4. Members of the Judicial Retirement System
5. Members of the Virginia Law Officers' Retirement System
6. Regular full-time employees of a political subdivision participating in the Virginia Retirement System, subject to Board approval
7. Regular full-time employees of a local school board who participate in the retirement system of a local government which provides group life insurance
8. Certain employees of teaching hospitals, other than the University of Virginia Medical Center
9. Certain employees of the Virginia Port Authority

No person shall have more than one coverage under the group insurance program.

Political subdivisions may request coverage for eligible employees, but shall not participate in this group insurance program while other group life insurance is in effect.

§§ 51.1-502 through 51.1-504

Summary of Plan Provisions

Group Life Insurance Program (GLI)

Group Insurance Benefits

Each employee shall be eligible for an amount of group life insurance of twice the amount of annual salary. If annual salary is not an even multiple of \$1,000, the annual salary is rounded up to the next \$1,000, without regard for the date of qualification for a retirement allowance.

The amount of life insurance for an employee who retires under normal retirement for service on an immediate retirement allowance or on postponed receipt of allowance shall be the amount of active life insurance described in the preceding paragraph. The life insurance amount is reduced by 25% on the January 1 following the first full year from the date the employee is separated from service and each January 1 thereafter to a minimum of 25% of the initial insurance amount. The amount of life insurance for an employee who retires for disability on an immediate retirement allowance shall be the amount of active life insurance described in the preceding paragraph. The life insurance amount is reduced 25% on the January 1 following the first full year from the date the employee attains his normal retirement date and each January 1 thereafter to a minimum of 25% of the initial insurance amount.

The amount of life insurance for an employee who is retired for disability on an immediate retirement allowance who has also attained age 55 shall have an insurance amount reduced as described above with the reduction beginning the January 1 following the first full year from the date the employee elects a service retirement allowance. § 51.1-505

The initial minimum benefit shall not be less than \$8,000 for employees with 30 years of creditable service. This amount is indexed each year in accordance with post-retirement supplement increases calculated for employees hired on or after July 1, 2010. Effective June 30, 2022, the indexed benefit minimum is \$8,984.

Any employee who was denied membership because of having attained age 60 at the time of being employed or reemployed and who has five or more years of service immediately prior to separation from service shall retain the life insurance coverage as though retiring immediately.

Any employee who has 20 years of creditable service at any time shall have insurance based on twice the highest annual salary.

Group Insurance Benefits (Continued)

Accidental Death and Dismemberment – Each employee shall be eligible for an amount of group accidental death and dismemberment insurance of twice the amount of annual salary. If annual salary is not an even multiple of \$1,000, the annual salary is rounded up to the next \$1,000. Accidental death and dismemberment insurance ceases upon separation from service or retirement and is not reflected in this valuation. § 51.1-505 through 51.1-505.01

Optional Life Insurance – The Board shall make available optional life, accidental death, and dismemberment insurance in incremental amounts not to exceed a maximum amount set by the Board. Optional life insurance benefits are not reflected in this valuation. § 51.1-512

Optional Life Insurance for Spouse and Minor Dependents – The Board shall make available optional life, accidental death, and dismemberment insurance on the employee’s spouse and minor dependents. Optional life insurance benefits are not reflected in this valuation. § 51.1-512.1

Funding

Each insured employee shall contribute an amount determined by the Board not to exceed the rate of \$0.70 per month for each \$1,000 of annual salary. Employers may assume employee contributions in whole or in part. Employees retired for service or disability shall not be required to contribute to the cost of their life insurance. §51.1-506.

Employers, other than the Commonwealth, shall pay the percentage of premiums or charges not paid for by employee contributions. Employees paid from special funds shall have their employer contributions paid from such funds. §51.1-508.

Statute

Code of Virginia, Title 51.1, Pensions, Benefits, and Retirement, Chapter 14. Health Insurance Credits for Certain Retirees, §§51.1-1400 to 51.1-1405.

Eligibility Requirements

Retired State Employees – The Commonwealth shall provide a credit toward the cost of health insurance coverage for any former state employees who retired under the Virginia Retirement System, State Police Officers' Retirement System, Judicial Retirement System, Virginia Law Officers' Retirement System, or any retirement system authorized; including, certain employees of institutions of higher education, teaching hospitals, the University of Virginia Medical Center, the Virginia Port Authority, the defined contribution plan, the Virginia Outdoors Foundation, or hybrid retirement program, and who (i) rendered at least 15 years of total creditable service under the Retirement System or (ii) rendered service as a temporary employee of the General Assembly in 1972 and became a member of the retirement system from 1972 to 1985 immediately following such temporary service. A state retiree shall be eligible to participate in the retiree health benefits program. Additionally, those whose retirement was for disability, a participant receiving long-term disability, and select members who defer retirement, are also eligible. §51.1-1400.

Retired Teachers – A teacher retired under the Virginia Retirement System, including the hybrid retirement program, who rendered at least 15 years of total creditable service under the System or plan shall receive a health insurance credit. Additionally, those whose retirement was for disability, a participant receiving long-term disability, and select members who defer retirement, are also eligible. §51.1-1401.

Retired Local Government Employees – Retired local government employees, whose localities have elected to participate in the Virginia Retirement System, including the hybrid retirement program, who rendered at least 15 years of total creditable service under the System shall receive a health insurance credit. Additionally, those whose retirement was for disability, a participant receiving long-term disability, and select members who defer retirement, are also eligible. §51.1-1402.

Summary of Plan Provisions

Health Insurance Credit Program (HIC)

Eligibility Requirements (Continued) **Retired School Division Employees Other than Teachers** – Employees of a local school division who are not teachers who retired under the Virginia Retirement System, including the hybrid retirement program who rendered at least 15 years of total creditable service under the System shall receive a health insurance credit. Additionally, those whose retirement was for disability, a participant receiving long-term disability, and select members who defer retirement, are also eligible. §51.1-1402.1

Retired Constitutional Officers, Employees of Constitutional Officers, General Registrars, Employees of General Registrars, and Local Social Service Employees – A local officer, general registrar, employee of a general registrar, or an employee of a local social services board, retired under the Virginia Retirement System, including the hybrid retirement program, who rendered at least 15 years of total creditable service under the System or plan shall receive a health insurance credit. Additionally, those whose retirement was for disability, a participant receiving long-term disability, and select members who defer retirement, are also eligible. §51.1-1403.

Health Insurance Credit¹ **State Employees** – The amount of each monthly health insurance credit shall be \$4 per year of creditable service credited to any retired state employee participating in the state retiree health benefits program or an alternative personal health insurance plan, not to exceed the health insurance premium for retiree-only coverage.

Any former member receiving long-term disability or disability retirement shall receive a maximum monthly credit which is the greater of \$120 or \$4 per year of creditable service at the time of disability retirement or eligibility for long-term disability.

Any employee who rendered at least 15 year of total creditable service as a state employee and after terminating was employed by a local government that does not elect to provide a health insurance credit under §51.1-1401 or §51.1-1402 shall be eligible for a credit based upon the amount of state service or service as a teacher, whichever is greater.

¹ Due to working across multiple employers, a participant may be subject to different health insurance credit accruals and monthly maximums than described above.

Summary of Plan Provisions

Health Insurance Credit Program (HIC)

Health Insurance Credit¹ (Continued) The Virginia Commonwealth University Health System Authority shall pay the cost of coverage for those who retired under the Virginia Retirement System or other authorized system, were employed by the Authority prior to July 1, 1998, and were not subsequently rehired on or after July 1, 1998, and served no less than 15 years of creditable service as regularly employed full-time employees of such Authority or the Commonwealth. §51.1-1400.

Teachers – The amount of each monthly health insurance credit shall be \$4 per year of creditable service credited applied to reduce the retired member’s health insurance premium cost.

Any former member receiving long-term disability or disability retirement shall receive a health insurance credit of \$4 multiplied by the smaller of twice the amount of creditable service or the amount of creditable service he or she would have completed at age 60 if the individual had remained in service until that age.

Any employee who rendered at least 15 year of total creditable service as a teacher and after terminating was employed by a local government that does not elect to provide a health insurance credit under §51.1-1402 shall be eligible for a credit based upon the amount of state service or service as a teacher, whichever is greater. §51.1-1401.

Local Government Employees – The amount of each monthly health insurance credit shall be \$1.50 per year of creditable service credited, not to exceed a maximum monthly credit of \$45, applied to reduce the retired member’s health insurance premium cost, provided the retiree’s employer elects to participate in the credit program.

Any former member receiving long-term disability or disability retirement shall receive a monthly credit of \$45.

The amount of credit received shall be the lessor of the amount of credit described above or the amount of premium paid for the personal health insurance policy.

¹ Due to working across multiple employers, a participant may be subject to different health insurance credit accruals and monthly maximums than described above.

School Division Employees Other than Teachers – The amount of each monthly health insurance credit shall be \$1.50 per year of creditable service credited applied to reduce the retired member’s health insurance premium cost. In addition, localities may elect to provide an additional credit of \$1 per month per year of creditable service.

Any former member receiving long-term disability or disability retirement shall receive a health insurance credit of \$1.50 multiplied by the smaller of twice the amount of creditable service or the amount of creditable service he or she would have completed at age 60 if the individual had remained in service until that age.

The amount of credit received shall be the lessor of the amount of credit described above or the amount of premium paid for the personal health insurance policy.

Any employee who terminates after receiving five or more years of creditable service, meets the 15 years of total creditable service requirement, and subsequently retires shall be entitled to receive this credit upon retirement. §51.1-1402.1

Retired Constitutional Officers, Employees of Constitutional Officers, General Registrars, Employees of General Registrars, and Local Social Service Employees – The amount of each monthly health insurance credit shall be borne by the Commonwealth, and is described in a separate report. The amount of each monthly health insurance credit shall be \$1.50 per year of creditable service credited, not to exceed a maximum of \$45, applied to reduce the retired member’s health insurance premium cost. In addition, localities may elect to provide an additional credit of \$1 per month per year of creditable service, not to exceed a maximum monthly credit of \$30. The cost of this additional \$1 credit shall be borne by the locality.

Any former member receiving long-term disability or disability retirement shall receive a monthly credit of \$45.

¹ Due to working across multiple employers, a participant may be subject to different health insurance credit accruals and monthly maximums than described above.

Eligibility Requirements (Continued) No participating employee commencing employment or who are reemployed on or after July 1, 2009 shall receive non-work-related benefits until completing one continuous year of employment. § 51.1-1103

Participants of the VSDP program are automatically covered under the VSDP Long Term Care Plan.

Benefits **Sickness and Disability Program** – The Board shall develop, implement, and administer sick-leave, short-term disability, and long-term disability programs.

The VRS Board may self-insure long-term disability benefits. This valuation does not include sick-leave or short-term disability. § 51.1-1101

Long-term disability benefits shall provide income replacement of 60% (80% for catastrophic disability) of creditable compensation upon the expiration of short-term disability benefits. Creditable compensation excludes salary increases awarded during disability and are increased annually by the Board. An employee's disability credits shall be used to extend the period of income replacement of 100% of creditable compensation. Long-term disability shall only be paid during total disability or partial disability. To be eligible for benefits, the employee must apply for Social Security disability benefits. An employee who is approved for disability benefits within five years of normal retirement shall be eligible for five years of disability benefits before being required to retire under service retirement. Members in receipt of long-term disability for greater than one year receive a COLA increase on their VSDP benefit. §§ 51.1-1112, 1123, 1131

Disability benefits shall be offset by:

- (1) During the first 12 months of disability an amount equal to the employee's wage and salary from any employment times the creditable compensation replacement percentage;
- (2) After the first 12 months of disability, an amount equal to 70% of the employee's wages and salary from any employment;
- (3) Disability payments from the Social Security Administration, local government disability benefits, federal or civil service disability benefits, or other similar government disability program benefits;
- (4) Benefits from any other group insurance contract provided by the Commonwealth for the purpose of providing income replacement;

**Benefits
(Continued)**

- (5) Benefits paid under any compulsory benefits law; and
- (6) A settlement in lieu of periodic payments for disability, if applicable. § 51.1-1114, 1125

Disability benefits shall cease upon the first to occur:

- (1) The end of the period of disability coverage.
- (2) The death of the participating employee;
- (3) The participating employee's normal retirement date or age 65 if not a member of the retirement system; and
- (4) Service retirement. § 51.1-1117, 1127

Survivor benefits shall be payable to the extent provided under death before retirement from the retirement system. § 51.1-1118, 1129

The Board is authorized to develop, implement and administer a long-term care insurance program for participating employees that includes, among other elements, provisions under which a person may purchase continuing coverage if he or she ceases to be a participating employee. §51.1-1135.2.

No person shall have more than one coverage under a disability benefit program. § 51.1-1136

Long-Term Care (LTC) Plan - The VSDP Long-Term Care Plan assists with the cost of:

- Care in a nursing home or hospice facility
- Assisted living facility care
- Community-based care
- Home healthcare services
- Informal care-giving
- Alternative or transitional care

Summary of Plan Provisions

Virginia Sickness and Disability Program (VSDP)

Benefits (Continued)

Participants may be eligible for LTC benefits if, in addition to satisfying a 90 calendar-day waiting period, a licensed healthcare professional certifies that the participant:

- Is unable to perform at least two of six activities of daily living; or
- Has a severe cognitive impairment requiring substantial supervision.

The maximum daily benefit amount is \$96 with a lifetime maximum of \$70,080.

Administrative Procedures

For an insurance product, the accounting shall include (i) the amounts of premiums actually accrued under the policy during the policy year, (ii) the total amount of all claim charges incurred during the policy year, and (iii) the amount of fees accrued under the policy during the year plus the total amount of all claim charges incurred during the policy year.

For a self-insured product, the accounting shall include the total amount of all claim charges incurred during the product year, the total amount of third-party administrator expenses, and the total amount of other charges for administrative services. § 51.1-1139

State agencies shall pay to the Board contributions amounts to provide such funds as required to obtain and maintain long-term disability insurance and the long-term care insurance program. § 51.1-1140

Actuarial Assumptions

To calculate VRS contribution requirements, plan accounting costs, and reporting requirements, assumptions are made about future events that could affect the amount and timing of expected benefits to be paid and the assets to be accumulated. The economic and demographic assumptions include:

- An investment return assumption that is used to discount liabilities and project expected earnings on plan assets.
- A mortality assumption projecting the number of members expected to die before retirement and the duration of benefit payments after retirement.
- Assumed retirement rates projecting when members are expected to retire and commence receiving retirement benefits.
- A set of withdrawal and disability rates to estimate the number of members expected to leave the work force before retirement.
- Assumed rates of pay increase to project expected member compensation in future years.

The actuarial assumptions currently used are summarized below and on the following pages. The actuarial assumptions used for the VRS valuations, including the assumed rate of investment return, are reasonable for purposes of the measurement.

Assumptions that Apply to All VRS Plans

Interest Rate: Funding plan benefits involves the accumulation of assets to pay benefits in the future. The net rate of investment earnings on assets is a significant factor in determining the contributions required to support the ultimate cost of benefits. For the 2022 actuarial valuations, the long-term investment return is assumed to be 6.75% annually, net of administrative and investment expenses.

Inflation: The long-term annual rate of price inflation is 2.5% annually.

Payroll Growth: The number of active members is projected to remain constant, and the total payroll is projected to increase 3.00% annually.

Administrative Expenses: Anticipated noninvestment expenses are based on actual prior year experience.

Mortality Assumptions by Group

The mortality rates are based upon the Pub-2010 Amount-Weighted tables, in conjunction with 75% of the MP-2020 Projection Scale on a fully generational basis, with adjustments for each plan. **Pre-Retirement, Post-Retirement, Post-Disablement, and Beneficiary & Survivor** tables follow – note that base rates are shown, and mortality improvement is anticipated as projected with a modified MP-2020 Improvement Scale.

Assumptions by Plan

Pension

Interest on Member Contributions: 4% per annum.

Cost-of-Living Increases: 2.50% per year compounded annually for Plan 1 members receiving benefits or vested as of January 1, 2013 and 2.25% compounded annually for all other members. The temporary supplement for SPORS and VaLORS members is assumed to be adjusted biennially based on increases of 2.50% per annum compounded annually.

Percent Electing a Deferred Termination Benefit: Terminating members are assumed to elect a return of contributions or a deferred annuity, whichever is the most valuable benefit at the time of termination. Termination benefits are assumed to commence at normal retirement age.

Assumed Payment Form: Modified cash refund annuity, in which the total benefit received by a member and his or her estate cannot be less than the total contributions made by the member while he or she was an active participant plus interest. For members in pay status, the modified cash refund was estimated to be in effect for two years after retirement for Judicial members and three years for all others.

Marriage Assumption: 100% of active employees are assumed to be married, with males two years older than females.

Service-Related Disability: The service-related disability benefits do not include an adjustment for Social Security or Worker's Compensation benefits.

Hazardous Duty Service: The valuations of SPORS and VaLORS assume that all VRS service is hazardous duty service for purposes of determining eligibility for the temporary supplement.

Disability Election: All active members hired on or after January 1, 1999 will enter the Virginia Sickness and Disability Program (VSDP) and will not be eligible to receive non-VSDP disability benefits. For members hired before January 1, 1999 we measure the liabilities based upon the member's actual election contained in the valuation data.

Employer Contribution to Defined Contribution Hybrid Plan: The valuation assumes an average employer defined contribution rate for members in the Hybrid Plan. VRS reports the rate for each valuation.

Salary Increase for Disabled Members: It is assumed members covered under VSDP receive a 3.50% annual increase in pay while disabled and this adjusted pay is used to determine benefits payable from the System.

Group Life Insurance Program

Minimum Benefit: Beginning with the fiscal year ending June 30, 2016, in no event will the death benefit be less than \$8,000 for members who retire with at least 30 years of creditable service. Between June 30, 2016 and the current valuation date, this minimum is indexed at the same rate as the post-retirement supplement for retirees hired on or after July 1, 2010. Beginning on the valuation date, this minimum is assumed to increase annually, effective July 1, by 2.25% (the same assumed annual increase percentage for any annual postretirement supplement for retirees, as calculated for employees hired on or after July 1, 2010).

“Life Insurance Only” Retirees: Select groups with eligible persons do not provide retiree census data. Valuation results include an estimate of retiree liability for such groups. The estimation assumptions have been continued at the levels previously determined by the prior actuary. In particular:

The Life Only group includes an estimated retire liability equal to 1.618% of the inactive accrued liability of non-Life Only groups.

The Optional Retirement Program (ORP) group includes an estimated retiree liability equal to 10% of the active ORP liability multiplied by the ratio of the average non-ORP/Life Only retiree accrued liability to the average non-ORP/Life Only active accrued liability.

Health Insurance Credit Program

Statewide Plans

Participation Rates: 95% of eligible future service retirees from active status are assumed to utilize the benefit plan. Eligible future service retirees from deferred vested status are assumed to utilize the benefit plan at 95%. Eligible future disabled benefit recipients from active status are assumed to utilize the benefit plan as follows:

System	Participation
State/JRS	95%
Teachers	90%
SPORS/VaLORS	80%

Percentage Not Utilizing the Maximum Benefit: The percentage of eligible future benefit recipients assumed to utilize the benefit plan, but not receive the maximum benefit for which they are eligible are as follows:

System	Percentage
State/JRS	5%
Teachers	15%
SPORS/VaLORS	10%

Percentage of Maximum Benefit Received: Eligible future benefit recipients assumed to utilize the benefit plan, but not receive the maximum benefit for which they are eligible are assumed to initially receive 70% of the maximum benefit for which they are eligible.

Annual Increase in Benefit for Those Not Receiving the Maximum Benefit: Benefit recipients assumed to utilize the benefit plan, but not receiving the maximum benefit for which they are eligible are assumed to have their benefit increase at the following rates:

Duration Since Retirement	Annual Increase in HIC Benefit
1 Year	4.50%
2 - 3 Years	4.25%
4 or More Years	3.00%

Additional Funding Charge: The contribution rate needed, if necessary, to allow the local system to use the Investment Return Rate as its Single Equivalent Interest Rate (SEIR) under GASB Statement No. 75. To determine the SEIR, the Plan Fiduciary Net Position (PFNP) must be projected into the future for as long as there are anticipated benefits payable under the plan's provision applicable to the membership and beneficiaries of the system on the Measurement Date. If the PFNP is projected to not be depleted at any point in the future, the long term expected rate of return on plan investments expected to be used to finance the benefit payments may be used as the SEIR. If the PFNP is projected to be depleted, an Additional Funding Charge is developed to avoid depletion.

Plan Surcharge: The additional contribution rate applied to plans below 75% funded in order to maintain a total employer contribution at the same level as the previous rate setting actuarial valuation.

Virginia Sickness and Disability Program (VSDP) and Virginia Local Disability Program (VLDP)

Long-Term Disability Benefits

Cost-of-Living Increase:

VSDP (Plan 1): 2.50% per year, compounded annually.
 VSDP (Plan 2/Hybrid): 2.25% per year, compounded annually.
 VLDP: 0.00% per year.

Income Replacement for Future Disabled Members: 62% of member’s pre-disability income.

Members with 1% Employer Contribution: 65% of Hybrid Plan members are assumed to meet the Social Security definition of Disability and become eligible to receive a one percent employer contribution to their defined contribution account.

Offsets for Active Members: The following benefit adjustments are assumed for the expected future monthly benefits to be paid to future disabled members.

Rates of Termination of Benefits Due to Death or Recovery: 2012 Group Long Term Disability Valuation Table (2012 GLTD) as proposed by the Society of Actuaries’ Group Disability Experience Committee for use by the National Association of Insurance Commissioners. Used as a basis for those rates applicable to plans with a six-month elimination period, “Own Occupation” definition of disability in the first twenty-four months and “Any Occupation” definition of disability for the twenty-fifth month onward, initial maximum guaranteed benefit of \$1,900, “No Diagnosis” cause of disability, 15% margin for recovery, 28% margin for deaths, and adjusted for prior five years of VRS experience with the following adjustment factors:

Month of Disability	Male	Female
4 - 24	0.852	0.803
25 - 60	0.811	0.821
61 - 120	1.164	1.184

Long-Term Care Benefits

Daily Benefit Amount: Assumed to be the maximum \$96 per day for service in a nursing home. The daily assumed benefit for home health care coverage is \$48.

Daily Benefit Amount Increases: The valuation does not include a provision for increases (i.e., 5% compound increase every five years). If the benefit policy is to provide increases at regular intervals, the resulting liability will be materially greater than the results presented (i.e., inflation increases are not assumed to be prefunded).

Benefit Maximums: Lifetime maximum benefits in the valuation are capped at \$70,080, which reflects a two-year maximum coverage period based upon a \$96 per day indemnity benefit.

Morbidity: For actively employed and ported members, the following claim incidence rates are used.

Disabled Life Reserve: The liability associated for those participants assumed to be in a current benefit period were developed based on completion factors from benefit start date for closed cases and applied to current members based on individual durations and payment levels.

Incurred But Not Reported Reserve: The liability associated for those participants with claims that have been incurred but not reported (IBNR), as of the valuation date, to the administrator was based upon an average of 3 months of actual benefit payments for the most recent year of experience.

Porting Rates: Porting rate assumptions are based upon experience over the first five years of the program, with substantial increases over the life of the program. Because actuarial experience (gains)/losses have fluctuated over the past several years, we made no modifications. Actuarial Funding Method

Actuarial Funding Method: The Board has adopted funding policies for the Virginia Retirement System to achieve the following major objectives:

- Develop level required contribution rates as a percentage of payroll;
- Finance benefits earned by present employees on a current basis;
- Accumulate assets to enhance members' benefit security;
- Produce investment earnings on accumulated assets to help meet future benefit costs;
- Estimate the long-term actuarial cost of proposed amendments to Plan provisions; and
- Assist in maintaining the VRS' long-term financial viability.

The basic funding objective is a level pattern of cost as a percentage of pay throughout each member's working lifetime.

The funding method used in the actuarial valuations – the entry age normal cost method – intends to: (i) meet this funding objective; and (ii) result in a relatively level long-term contribution requirement as a percentage of pay.

Under the entry age normal cost method, the total actuarially-determined contribution requirement is equal to the sum of the normal cost plus the payment required to fund the unfunded actuarial accrued liability over a period of years. Funding or amortizing the unfunded actuarial accrued liability includes a payment toward the liability (principal) plus a payment to reflect the time value of money (interest).

Normal Cost: The cost of benefit rights accruing on the basis of current service. Technically, the normal cost rate is the level percentage-of-pay contribution required each year, with respect to each member, to accumulate over their projected working lifetime the reserves needed to meet the cost of earned benefits. The normal cost represents the ultimate cost of the plan, if the unfunded liability is paid up and the actual experience of the Program conforms to the assumptions. For purposes of Plan funding, the normal cost for each member is calculated based on the prospective benefit formula for that member (referred to as the replacement life method), with entry based upon benefit service (eligibility service if the participant is reported with a frozen benefit). For accounting purposes, the normal cost for each member is calculated as the level contribution over the member's entire career which is anticipated to accumulate to the value of benefits at the end of the career.

Actuarial Funding Method

Actuarial Accrued Liability: The total actuarial present value of future benefits is computed using the valuation's actuarial assumptions. Subtracting the present value of future normal costs results in the actuarial accrued liability.

The total actuarial accrued liability essentially represents the amount that would have been accumulated as of a given valuation date, if:

- (i) Contributions sufficient to meet the normal costs of the plan had been made each year in the past;
- (ii) Benefit provisions had always been the same as current benefit provisions; and
- (iii) Actual past experience had always conformed to current actuarial assumptions. If assets equaled the total accrued liability, there would be no unfunded liability and future contribution requirements would consist solely of the calculated normal cost rates, absent other funding policy parameters.

Amortization of Unfunded Actuarial Accrued Liability: The "legacy" unfunded actuarial accrued liability ("legacy UAAL"), equaling the unfunded actuarial accrued liability as of June 30, 2013, is amortized over a closed 30-year period beginning June 30, 2013. The amortization period of the legacy UAAL will decrease by one in each subsequent valuation until reaching 0 years. Actuarial gains and losses and other changes in the UAAL due to benefit and actuarial assumption and method changes for each valuation subsequent to the June 30, 2013 valuation are amortized over layered 20-year closed periods. The amortization of the UAAL assumes that payroll will increase by 3% annually and the amortization period will decrease by one year until reaching 0 years. See the Amortization Schedule in the report for more detail.

The amortization payment includes an adjustment of 1.018041 to account for the passage of time from the valuation date to the date the contribution is made.

Valuation Assets – For Special Coverage Groups and Political Subdivisions providing HIC Benefits:

The actuarial value of assets equals the market value of assets.

Valuation Assets – All Other Plans: The actuarial value of assets are determined on the basis of a method that calculates expected investment income at the valuation rate of return and adds a portion of the difference between the expected investment income and actual investment income earned on a market value basis. The difference in investment income between expected return and market return is recognized over a 5-year period at the rate of 20% per year. The resulting actuarial value of assets cannot be less than 80% or more than 120% of the market value of assets.

For Political Subdivision pension plans, the actuarial value of assets is determined in aggregate for all plans, with a corresponding aggregate ratio of actuarial value to market value. The aggregate ratio is then applied to the market value of each Political Subdivision plan to determine the actuarial value of assets each individual Political Subdivision plan.
