The Board of Trustees
Virginia Retirement System
1200 E. Main Street
Richmond, VA 23219

Dear Trustees:

We are pleased to submit the results of the annual actuarial valuation for the following other postemployment benefits plans (OPEB Plans) of the Virginia Retirement System (VRS), prepared as of June 30, 2016:

- Group Life Insurance Program (GLI)
- Health Insurance Credit Program (HIC)
 - State Employees (HIC – State Employees)
 - Teachers (HIC – Teachers)
 - Participating Political Subdivisions in Aggregate (HIC – Political Subdivisions)
 - Special Coverage Groups (HIC – Special Coverage Groups)
 - Constitutional Officers (HIC – Constitutional Officers)
 - Social Service Employees (HIC – Social Service Employees)
 - Registrars (HIC – Registrars)
- Virginia Sickness and Disability Program (VSDP)
- Virginia Local Disability Program (VLDP)
 - Teachers (VLDP – Teachers)
 - Political Subdivisions (VLDP – Political Subdivisions)

As described above, this report includes information, in aggregate, on the actuarial valuations of the Health Insurance Credit Program for participating Political Subdivisions as of June 30, 2016. We have prepared and provided separately, actuarial valuation reports for each of the participating Political Subdivisions. Please refer to the individual reports for the valuation results, summary of actuarial assumptions and methods, and plan provisions for each of the participating Political Subdivision plans.

Governmental Accounting Standards Board Statements No. 43 and No. 45 (GASB 43 and 45) require actuarial valuations of retiree health care and other postemployment benefits (OPEB). Cavanaugh Macdonald Consulting, LLC (CMC) is submitting the results of the annual actuarial valuation of the OPEB Plans of VRS prepared as of June 30, 2016. While not verifying the data at source, the actuary performed tests for consistency and reasonability. The asset values used to determine unfunded liabilities are not market values but less volatile market related values. A smoothing technique is applied to market values to determine the market related values. The unfunded liability amounts using the market value of assets would be different. The interest rate used for determining liabilities is based on the expected return on assets. Therefore, liability amounts in this report cannot be used to assess a settlement of the obligation.

Contribution rates for Virginia Retirement System (VRS) employers are established every two years. The actuarially calculated employer contribution rates based on the current valuation are for informational purposes only.

The valuation results indicate that the full employer contribution rates shown in the following table are sufficient to fund the normal cost for all members and finance the unfunded accrued liability of the indicated OPEB Plans. For comparison, in the following table, we present the employer contribution rates based on the June 30, 2015 actuarial valuation, the employer contribution rates approved by the General Assembly for fiscal years ending 2017 and 2018, and the employer contribution rates based on the June 30, 2016 actuarial valuation.

OPEB Plan	Fiscal Years 2017 & 2018		2016 Valuation (Informational Only)
	Board Approved	General Assembly Approved	
	2015 Valuation		
GLI*	1.31%	1.31%	1.31%
HIC – State Employees	1.18%	1.18%	1.15%
HIC – Teachers	1.23%	1.11%/1.23%	1.25%
HIC – Participating Political Subdivisions**	0.31%	0.31%	0.32%
HIC – Constitutional Officers	0.36%	0.36%	0.37%
HIC – Social Service Employees	0.42%	0.42%	0.42%
HIC – Registrars	0.41%	0.41%	0.40%
VSDP	0.66%	0.66%	0.63%
VLDP – Teachers	0.31%	0.31%	0.32%
VLDP – Political Subdivisions	0.60%	0.60%	0.62%

*The contribution rate for GLI includes an adjustment of 0.34% for active group life insurance, see Section I for additional detail.

** Average of individual employer rates.

The promised postemployment benefits of the OPEB Plans are included in the actuarially calculated contribution rates which are developed using the entry age normal actuarial cost method with projected benefits. The valuation takes into account the differentiation between Plan 1 vested members, Plan 1 non-vested members as of January 1, 2013 resulting from HB 1130 and SB 498, Plan 2 members and Hybrid members. Five-year smoothed market value of assets is used for actuarial valuation purposes (with the exception of HIC - Political Subdivisions and HIC - Special Coverage Groups). GASB 43 and 45 require the discount rate used to value a plan be based on the likely return of the assets used to pay benefits. As of June 30, 2016, the plan has assets in trust solely to provide benefits to eligible recipients. Therefore, the discount rate has been set at 7.00%. In accordance with the funding policy adopted by the Board of Trustees, the unfunded liability is being amortized by regular annual contributions as a level percentage of payroll within a closed 30 year period for the unfunded liability as of July 1, 2013, and gains and losses in subsequent years are amortized within a closed 20 year period, on the assumption that payroll will increase by 3% annually and the amortization period will decrease by one each year until reaching 0 years. In the event that the funding policy produces an effective amortization period of greater than 30 years, a 30 year amortization period is used in accordance with GASB 43 and 45. The assumptions recommended by the actuary and adopted by the Board are in the aggregate reasonably related to the experience under the OPEB Plans and to reasonable expectations of anticipated experience under the OPEB Plans and meet the parameters for the disclosures under GASB 43 and 45.

The annual required contributions were determined in accordance with the accounting requirements under GASB 43 and 45.

Our organization has only a contractual relationship with the Virginia Retirement System to provide actuarial consulting services and we do not provide other services to nor have a financial interest in the Virginia Retirement System. There are no known interests or relationships that our firm has with the Virginia Retirement System that may impair or appear to impair the objectivity of our work.

The Board of Trustees

Page 3

This is to certify that the independent consulting actuary is a member of the American Academy of Actuaries and has experience in performing valuations for public retirement systems, that the valuation was prepared in accordance with principles of practice prescribed by the Actuarial Standards Board, and that the actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the OPEB Plans and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of VRS.

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: Experience of the OPEB Plans differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the OPEB Plans' funded status); and changes in the provisions of the OPEB Plans or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

The Table of Contents, which immediately follows, outlines the material contained in the report.

Number Active (participating in VLDP)	4,675	2,917
Number Disabled	<u>0</u>	<u>0</u>
Total	4,675	2,917
Annual Covered Payroll*	\$ 147,729	\$ 88,350
Assets:		
Market Value	\$ 0	\$ 0
Actuarial Value	\$ 52	\$ 30
Unfunded Actuarial Accrued Liability	\$ 326	\$ 106
Effective Amortization Period (Years)	19.8	17.9
Annual Required Contribution (ARC) in Dollars:		
Normal Cost**	\$ 883	\$ 515
Accrued Liability	<u>23</u>	<u>8</u>
Total	\$ 906	\$ 523
ARC as a Percent of Active Payroll***:		
Normal Cost	0.61%	0.59%
Accrued Liability	<u>0.01</u>	<u>0.01</u>
Total	0.62%	0.60%
Discount Rate	7.00%	7.00%

* Annual Covered Payroll consists of only those employees participating in VLDP.

** Includes estimated third party administrator expenses of \$156,000 for 2015 and total administrative expenses of \$260,000 for 2016.

*** Includes timing adjustment factor of 1.0192

Section I – Summary of Principal Results (continued)

2. Comments on the valuation results as of June 30, 2016 are given in Section IV and further discussion of the contribution levels is provided in Section V.
3. Schedule B shows the development of the actuarial value of assets. Schedule D and Schedule E of this report outline the full set of actuarial assumptions and methods used in the current valuation. The Political Subdivisions have been divided into two groups. Group A consists of: City of Virginia Beach, Henrico County, Prince William County, Chesterfield County, City of Chesapeake, City of Alexandria, City of Hampton, Loudoun County, City of Lynchburg, and the City of Portsmouth. Group B is all other Political Subdivisions not included in Group A.
4. The GLI cost of benefits for members who die in active service is covered on a one-year term basis through an insurance company, and is not included in the actuarial valuation. The term cost for these active members has been provided to CMC by VRS and is currently 14.1¢ per \$1,000 of insurance. This cost is included in Summary of Principal Results to provide a combined contribution rate for deaths in active service and postemployment benefits.
5. Changes to the actuarial assumptions and methods from the last actuarial valuation:
 - For VSDP and VLDP the actuarial cost method used for calculation of LTC actuarial accrued liability and normal cost was changed from Projected Unit Credit (PUC) to Entry Age Normal (EAN).
6. The valuation takes into account the effect of amendments to VRS through the valuation date. The main plan provisions of VRS, as summarized in Schedule F, were taken into account in the current valuation.

Section II – Membership Data

1. Data regarding the membership of VRS for use as a basis of the valuation were furnished by VRS. The following table shows the number of active members and their annual compensation, as of June 30, 2016, on the basis of which the valuation was prepared.

TABLE 1

**THE NUMBER, ANNUAL COVERED PAYROLL, AND INSURANCE
AMOUNT OF GLI MEMBERS AS OF JUNE 30, 2016
(\$ IN THOUSANDS)**

Group	Number	Covered Payroll	Insurance Amount
<u>ACTIVE EMPLOYEES</u>			
State Employees	74,968	\$ 4,002,477	\$ 8,004,954
Teachers	149,018	7,666,824	15,333,648
VRS Political Subdivisions	106,271	4,656,697	9,313,394
SPORS	1,940	114,877	229,754
JRS	416	65,524	131,048
VaLORS	9,106	352,677	705,354
Life Insurance Only	<u>20,959</u>	<u>1,462,803</u>	<u>2,925,606</u>
Total	362,678	\$18,321,879	\$36,643,758
<u>RETIRED OR DISABLED MEMBERS</u>			
Service Retirees	156,021	n/a	\$ 7,284,550
Disabled Members	<u>17,113</u>	n/a	<u>948,302</u>
Total	173,134	n/a	\$ 8,232,852

The group shown above as “Life Insurance Only” consists of political subdivisions not providing VRS pension benefits and eligible members in the Optional Retirement Plan (ORP).

Section II – Membership Data (continued)

TABLE 2

**THE NUMBER AND ANNUAL COVERED PAYROLL
OF ALL ACTIVE MEMBERS AS OF JUNE 30, 2016
(\$ IN THOUSANDS)**

OPEB Plan	Number	Covered Payroll
GLI	362,678	\$18,321,880

OPEB Plan	June 30, 2016	June 30, 2015
GLI	\$1,247,564	\$1,128,876
HIC – State Employees	70,798	67,164
HIC – Teachers	86,701	85,379
HIC – Participating Political Subdivisions*	19,337	19,348
HIC – Constitutional Officers*	1,479	1,120
HIC – Social Service Employees*	861	915
HIC – Registrars*	11	7
VSDP	416,248	398,609
VLDP – Teachers	57	48
VLDP – Political Subdivisions	52	30

*Actuarial value of assets equal to market value of assets.

Section IV – Comments on Valuation

GROUP LIFE INSURANCE PROGRAM

1. The June 30, 2016 valuation shows GLI has total prospective liabilities of \$3,491,820,000, of which \$1,749,825,000 is for the prospective death benefits payable on account of present retired and disabled members, and \$1,741,995,000 is for the prospective postemployment death benefits payable on account of present active members. Against these benefit liabilities, GLI has a total present actuarial value of assets of \$1,247,564,000 as of June 30, 2016. The difference of \$2,244,256,000 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for GLI on account of postemployment death benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year, plus administrator expenses. The valuation indicates the normal contribution for GLI is 0.42% of total active covered payroll.
3. Prospective normal contributions have a present value of \$517,352,000. When this amount is subtracted from \$2,244,256,000, which is the present value of the total future contributions to be made by the employers, there remains \$1,726,904,000 as the amount of future accrued liability contributions.
4. For GLI, it is recommended that the accrued liability contribution rate payable by employers on account of retirement benefits be set at 0.55% of total active covered payroll. This rate is sufficient to liquidate the unfunded accrued liability of \$1,726,904,000 over 27.5 years, based on a 7.00% investment rate of return assumption and that aggregate payroll will increase by 3.00% each year. See Schedule C for the amortization schedule for the unfunded accrued liability. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) is 0.97% of total active covered payroll. This rate is equivalent to 40.4¢ per month per \$1,000 of active members' life insurance.

Section IV – Comments on Valuation (continued)

6. This valuation determines the cost of advance funding the postemployment death benefits under GLI. The cost of death benefits for members who die in active service is covered on a one-year term basis through an insurance company and is not included in the actuarial valuation. The term cost for these active members has been provided to CMC by VRS and is currently 14.1¢ per month per \$1,000 of insurance.
7. The sum of the active term cost of 14.1¢ per \$1,000 of active members' life insurance and the postemployment advance funding cost of 40.4¢ per \$1,000 of active members' life insurance is 54.5¢ per \$1,000 of active members' life insurance.
8. GLI experienced a liability loss since the prior valuation of \$48.3 million; primarily due to demographic and salary experience. Assets grew less than expected for an asset loss of \$0.6 million. Combining the liability loss with the asset loss results in an overall loss on the unfunded liability of \$48.9 million.

Section IV – Comments on Valuation (continued)

HEALTH INSURANCE CREDIT PROGRAM STATE EMPLOYEES (State, JRS, SPORS, VaLORS, ORP, and UVA)

1. For HIC - State Employees, the June 30, 2016 valuation shows total prospective benefit liabilities of \$1,112,913,000, of which \$610,570,000 is for the prospective retiree health care benefits payable on account of present retired members, members receiving disability benefits, and eligible deferred vested members, and \$502,343,000 is for the prospective retiree health care benefits payable on account of present active members. Against these benefit liabilities, HIC - State Employees has a total present actuarial value of assets of \$70,798,000 as of June 30, 2016. The difference of \$1,042,115,000 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for HIC - State Employees on account of retiree health care benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year, plus administrator expenses. The normal contribution for HIC - State Employees is determined to be 0.29% of total active covered payroll.
3. Prospective normal contributions have a present value of \$125,272,000. When this amount is subtracted from \$1,042,115,000, which is the present value of the total future contributions to be made by the employers, there remains \$916,843,000 as the amount of future accrued liability contributions.
4. For HIC - State Employees, it is recommended that the accrued liability contribution rate payable by employers on account of retiree health care benefits be set at 0.86% of total active covered payroll. This rate is sufficient to liquidate the unfunded accrued liability of \$916,843,000 over 27.0 years, based on a 7.00% investment rate of return and the assumption payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) is 1.15% of total active covered payroll.

Section IV – Comments on Valuation (continued)

6. HIC - State Employees experienced a liability gain since the prior valuation of \$8.2 million; primarily due to demographic changes. The assets grew less than expected for a loss of \$1.4 million, for an overall gain on the unfunded liability of \$6.8 million.

Section IV – Comments on Valuation (continued)

HEALTH INSURANCE CREDIT PROGRAM TEACHERS

1. For HIC - Teachers, the June 30, 2016 valuation shows total prospective benefit liabilities of \$1,505,916,000, of which \$811,164,000 is for the prospective retiree health care benefits payable on account of present retired members, members receiving disability benefits, and eligible deferred vested members, and \$694,752,000 is for the prospective retiree health care benefits payable on account of present active members. Against these benefit liabilities, HIC – Teachers has a total present actuarial value of assets of \$86,701,000 as of June 30, 2016. The difference of \$1,419,215,000 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for HIC - Teachers on account of retiree health care benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year, plus administrator expenses. The normal contribution for HIC - Teachers is determined to be 0.26% of total active covered payroll.
3. Prospective normal contributions have a present value of \$154,713,000. When this amount is subtracted from \$1,419,215,000, which is the present value of the total future contributions to be made by the employers, there remains \$1,264,502,000 as the amount of future accrued liability contributions.
4. For HIC - Teachers, it is recommended that the accrued liability contribution rate payable by employers on account of retiree health care benefits be set at 0.99% of salary. This rate is sufficient to liquidate the unfunded accrued liability of \$1,264,502,000 over 26.7 years, based on a 7.00% investment rate of return and the assumption payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) is 1.25% of total active covered payroll.

Section IV – Comments on Valuation (continued)

6. HIC - Teachers experienced a liability gain since the prior valuation of \$0.8 million; primarily due to demographic changes. The assets grew less than expected for a loss of \$1.9 million; for an overall loss on the unfunded liability of \$1.1 million.

Section IV – Comments on Valuation (continued)

HEALTH INSURANCE CREDIT PROGRAM PARTICIPATING POLITICAL SUBDIVISIONS

1. For HIC - Participating Political Subdivisions, the June 30, 2016 valuation shows total prospective benefit liabilities of \$44,895,000, of which \$20,216,000 is for the prospective retiree health care benefits payable on account of present retired members, members receiving disability benefits, and eligible deferred vested members, and \$24,679,000 is for the prospective retiree health care benefits payable on account of present active members. Against these benefit liabilities, HIC - Participating Political Subdivisions has, in aggregate, a total present market value of assets of \$19,337,000 as of June 30, 2016. The difference of \$25,558,000 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for HIC - Participating Political Subdivisions on account of retiree health care benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year, plus administrator expenses. The average normal contribution for HIC - Participating Political Subdivisions is determined to be 0.14% of total active covered payroll.
3. Prospective normal contributions have a present value of \$6,653,000. When this amount is subtracted from \$25,558,000, which is the present value of the total future contributions to be made by the employers, there remains \$18,905,000 as the amount of future accrued liability contributions.
4. For HIC - Participating Political Subdivisions, the average accrued liability contribution rate payable by employers on account of retiree health care benefits is 0.18% of salary. This rate is sufficient to liquidate the unfunded accrued liability of \$18,905,000 over 26.3 years, based on a 7.00% investment rate of return and the assumption payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The average total annual required contribution (ARC) is 0.32% of total active covered payroll.

Section IV – Comments on Valuation (continued)

6. HIC - Participating Political Subdivisions experienced a liability loss since the prior valuation of \$0.1 million. The assets grew less than expected for a loss of \$1.2 million; for an overall loss on the unfunded liability of \$1.3 million.

Section IV – Comments on Valuation (continued)

HEALTH INSURANCE CREDIT PROGRAM CONSTITUTIONAL OFFICERS

1. For HIC - Constitutional Officers, the June 30, 2016 valuation shows total prospective benefit liabilities of \$32,292,000, of which \$15,106,000 is for the prospective retiree health care benefits payable on account of present retired members, members receiving disability benefits, and eligible deferred vested members, and \$17,186,000 is for the prospective retiree health care benefits payable on account of present active members. Against these benefit liabilities, HIC - Constitutional Officers has a total present actuarial value of assets of \$1,479,000 as of June 30, 2016. The difference of \$30,813,000 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for HIC - Constitutional Officers on account of retiree health care benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year. The normal contribution for HIC - Constitutional Officers is determined to be 0.11% of total active covered payroll.
3. Prospective normal contributions have a present value of \$4,514,000. When this amount is subtracted from \$30,813,000, which is the present value of the total future contributions to be made by the employers, there remains \$26,299,000 as the amount of future accrued liability contributions.
4. For HIC - Constitutional Officers, it is recommended that the accrued liability contribution rate payable by employers on account of retiree health care benefits be set at 0.26% of salary. This rate is sufficient to liquidate the unfunded accrued liability of \$26,299,000 over 26.4 years, based on a 7.00% investment rate of return and the assumption payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) is 0.37% of total active covered payroll.
6. HIC - Constitutional Officers experienced a liability loss since the prior valuation of \$0.1 million; primarily due to demographic changes. The assets grew less than expected for a loss of \$0.1 million; for an overall loss on the unfunded liability of \$0.2 million.

Section IV – Comments on Valuation (continued)

HEALTH INSURANCE CREDIT PROGRAM SOCIAL SERVICE EMPLOYEES

1. For HIC - Social Service Employees, the June 30, 2016 valuation shows total prospective benefit liabilities of \$15,473,000, of which \$8,770,000 is for the prospective retiree health care benefits payable on account of present retired members, members receiving disability benefits, and eligible deferred vested members, and \$6,703,000 is for the prospective retiree health care benefits payable on account of present active members. Against these benefit liabilities, HIC - Social Service Employees has a total present actuarial value of assets of \$861,000 as of June 30, 2016. The difference of \$14,612,000 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for HIC - Social Service Employees on account of retiree health care benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year. The normal contribution for HIC - Social Service Employees is determined to be 0.10% of total active covered payroll.
3. Prospective normal contributions have a present value of \$1,758,000. When this amount is subtracted from \$14,612,000, which is the present value of the total future contributions to be made by the employers, there remains \$12,854,000 as the amount of future accrued liability contributions.
4. For HIC - Social Service Employees, it is recommended that the accrued liability contribution rate payable by employers on account of retiree health care benefits be set at 0.32% of salary. This rate is sufficient to liquidate the unfunded accrued liability of \$12,854,000 over 26.7 years, based on a 7.00% investment rate of return and the assumption payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) is 0.42% of total active covered payroll.

Section IV – Comments on Valuation (continued)

6. HIC - Social Services Employees experienced a liability gain/loss since the prior valuation of \$0.0 million.

The assets grew as expected for a gain/loss of \$0.0 million; for an overall gain/loss on the unfunded liability of \$0.0 million.

Section IV – Comments on Valuation (continued)

HEALTH INSURANCE CREDIT PROGRAM REGISTRARS

1. For HIC - Registrars, the June 30, 2016 valuation shows total prospective benefit liabilities of \$581,000, of which \$291,000 is for the prospective retiree health care benefits payable on account of present retired members, members receiving disability benefits, and eligible deferred vested members, and \$290,000 is for the prospective retiree health care benefits payable on account of present active members. Against these benefit liabilities, HIC - Registrars has a total present actuarial value of assets of \$11,000 as of June 30, 2016. The difference of \$570,000 between the total liabilities and the total present actuarial value of assets represents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for HIC - Registrars on account of retiree health care benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year. The normal contribution for Registrars is determined to be 0.11% of total active covered payroll.
3. Prospective normal contributions have a present value of \$71,000. When this amount is subtracted from \$570,000, which is the present value of the total future contributions to be made by the employers, there remains \$499,000 as the amount of future accrued liability contributions.
4. For HIC - Registrars, it is recommended that the accrued liability contribution rate payable by employers on account of retiree health care benefits be set at 0.29% of salary. This rate is sufficient to liquidate the unfunded accrued liability of \$499,000 over 26.1 years, based on a 7.00% investment rate of return and the assumption payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) is 0.40% of total active covered payroll.
6. HIC - Registrars experienced a liability gain since the prior valuation of \$13.5 thousand; primarily due to demographic changes. The assets grew less than expected for a loss of \$0.6 thousand; for an overall gain on the unfunded liability of \$12.9 thousand.

Section IV – Comments on Valuation (continued)

VIRGINIA SICKNESS AND DISABILITY PROGRAM

1. The June 30, 2016 valuation of VSDP shows total prospective benefit liabilities of \$435,016,000, of which \$156,449,000 is for the prospective benefits payable on account of present disabled and ported members, and \$278,567,000 is for the prospective benefits payable on account of present active members. Against these liabilities, LTD and LTC benefits have present assets of \$416,248,000 as of June 30, 2016. The difference of \$18,768,000 between the total liabilities and the total present actuarial value of assets presents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for VSDP on account of disabled and ported member benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year, plus administrator expenses. The normal contribution is determined to be 0.92% of total active covered payroll.
3. Prospective normal contributions have a present value of \$194,130,000. When this amount is subtracted from \$18,768,000, which is the present value of the total future contributions to be made by the employers, a surplus of \$175,362,000 results.
4. It is recommended that the accrued liability contribution rate payable by employers on account of LTD and LTC benefits be set at -0.29% of total active covered payroll. This rate includes an amount sufficient to liquidate the surplus of \$175,362,000 over 24.5 years, based on a 7.00% investment rate of return and the assumption that the payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) for LTD benefits and LTC benefits, combined, is 0.63% of total active covered payroll.
6. VSDP experienced a liability gain since the prior valuation of \$6.2 million; primarily due to demographic changes. This gain includes a loss of \$1.7 million for the change in actuarial cost method. The assets grew more than expected for a gain of \$3.8 million; for an overall gain on the unfunded liability of \$10.0 million.

Section IV – Comments on Valuation (continued)

VIRGINIA LOCAL DISABILITY PROGRAM TEACHERS

1. The June 30, 2016 valuation of VLDP – Teachers shows total prospective benefit liabilities of \$3,913,000, of which \$132,000 is for the prospective benefits payable on account of present disabled and ported members, and \$3,781,000 is for the prospective benefits payable on account of present active members. Against these liabilities, LTD and LTC benefits have present assets of \$57,000 as of June 30, 2016. The difference of \$3,856,000 between the total liabilities and the total present actuarial value of assets presents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for VLDP – Teachers on account of disabled and ported member benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year, plus administrator expenses. The normal contribution is determined to be 0.31% of total active covered payroll.
3. Prospective normal contributions have a present value of \$3,474,000. When this amount is subtracted from \$3,856,000, which is the present value of the total future contributions to be made by the employers, there remains \$382,000 as the amount of future accrued liability contributions.
4. For VLDP – Teachers, it is recommended that the accrued liability contribution rate payable by employers on account of LTD and LTC benefits be set at 0.01% of total active covered payroll. This rate includes an amount sufficient to liquidate the unfunded accrued liability of \$382,000 over 18.7 years, based on a 7.00% investment rate of return and the assumption that the payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) for LTD benefits and LTC benefits, combined, is 0.32% of total active covered payroll.
6. VLDP – Teachers experienced a liability loss since the prior valuation of \$512.2 thousand; primarily due to administrative expenses greater than expected. This loss includes a gain of \$70.0 thousand for the

Section IV – Comments on Valuation (continued)

change in actuarial cost method. The assets grew more than expected for a gain of \$5.6 thousand; for an overall loss on the unfunded liability of \$506.6 thousand.

Section IV – Comments on Valuation (continued)

VIRGINIA LOCAL DISABILITY PROGRAM POLITICAL SUBDIVISIONS

1. The June 30, 2016 valuation for VLDP – Political Subdivisions shows total prospective benefit liabilities of \$4,962,000, of which \$135,000 is for the prospective benefits payable on account of present disabled and ported members, and \$4,827,000 is for the prospective benefits payable on account of present active members. Against these liabilities, LTD and LTC benefits have present assets of \$52,000 as of June 30, 2016. The difference of \$4,910,000 between the total liabilities and the total present actuarial value of assets presents the present value of contributions to be made in the future on account of benefits. Schedule A of this report outlines the results of the actuarial valuation.
2. The contributions for VLDP – Political Subdivisions on account of disabled and ported member benefits consist of normal contributions and accrued liability contributions. The normal contribution is equal to the actuarial present value of benefits accruing during the current year, plus administrator expenses. The normal contribution is determined to be 0.61% of total active covered payroll.
3. Prospective normal contributions have a present value of \$4,584,000. When this amount is subtracted from \$4,910,000, which is the present value of the total future contributions to be made by the employers, there remains \$326,000 as the amount of future accrued liability contributions.
4. For VLDP – Political Subdivisions, it is recommended that the accrued liability contribution rate payable by employers on account of LTD and LTC benefits be set at 0.01% of total active covered payroll. This rate includes an amount sufficient to liquidate the unfunded accrued liability of \$326,000 over 19.8 years, based on a 7.00% investment rate of return and the assumption that the payroll will increase by 3.00% annually. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule D and Schedule E.
5. The total annual required contribution (ARC) for LTD benefits and LTC benefits, combined, is 0.62% of total active covered payroll.
6. VLDP – Political Subdivisions experienced a liability loss since the prior valuation of \$492.9 thousand; primarily due to administrative expenses greater than expected. This loss includes a gain of \$57.4

Section IV – Comments on Valuation (continued)

thousand for the change in actuarial cost method. The assets grew more than expected for a gain of \$19.9 thousand; for an overall loss on the unfunded liability of \$473.0 thousand.

Section V – Contribution Rates

1. The actuarially determined employer contribution (ARC) rates based on the June 30, 2016 actuarial valuation for each OPEB Plan are shown in the following table:

TABLE 7

**ANNUAL REQUIRED CONTRIBUTION (ARC) EXPRESSED
AS A PERCENTAGE OF ACTIVE MEMBER COVERED PAYROLL**

OPEB Plan	June 30, 2016
GLI*	1.31%
HIC – State Employees	1.15
HIC – Teachers	1.25
HIC – Participating Political Subdivisions**	0.31
HIC – Constitutional Officers	0.37
HIC – Social Service Employees	0.42
HIC – Registrars	0.40
VSDP	0.63
VLDP – Teachers	0.32
VLDP – Political Subdivisions	0.62

* The contribution rate for GLI includes an adjustment of 0.34% for active group life insurance, see Section I for additional detail.

** Average of individual employer rates.

Section V – Contribution Rates (continued)

2. The table below shows the normal contribution rate, the unfunded actuarial accrued liability (UAAL), amortization payment rate, and the resulting actuarially required contribution (ARC) rate for each OPEB Plan.

TABLE 8
EMPLOYER CONTRIBUTION RATE EXPRESSED
AS PERCENT OF ACTIVE MEMBER COVERED PAYROLL

OPEB Plan	Rate as a Percent of Covered Payroll		
	Normal Cost* (a)	UAAL Amortization Payment (b)	Annual Required Contribution (c) = (a) + (b)
GLI	0.76%**	0.55%	1.31%
HIC – State Employees	0.29	0.86	1.15
HIC – Teachers	0.26	0.99	1.25
HIC – Participating Political Subdivisions***	0.14	0.18	0.32
HIC – Constitutional Officers	0.11	0.26	0.37
HIC – Social Service Employees	0.10	0.32	0.42
HIC – Registrars	0.11	0.29	0.40
VSDP	0.92	(0.29)	0.63
VLDP – Teachers	0.31	0.01	0.32
VLDP – Political Subdivisions	0.61	0.01	0.62

* Includes total administrative expenses.

** The normal cost rate for GLI includes an addition of 0.34% for active group life insurance, see Section I for additional detail.

*** Average of individual employer rates.

Section V – Contribution Rates (continued)

3. Contributions to GLI consist of one-year term active member life insurance provided through an insurance company, and advance funding payments to support postemployment life insurance. On the basis of the valuation, we are recommending a total contribution rate of 54.5¢ per month per \$1,000 of active members' life insurance. The recommended contributions are summarized in the following table:

TABLE 9

**GROUP LIFE INSURANCE PROGRAM
EMPLOYER CONTRIBUTION RATE EXPRESSED
AS CENTS PER \$1,000 OF LIFE INSURANCE COVERAGE**

Recommended Contribution	Rate	
	¢ per \$1,000 of Active Members' Life Insurance	% of Covered Payroll
Active Member Term Cost	14.1¢	0.34%
Postemployment Advance Funding	<u>40.4¢</u>	<u>0.97%</u>
Total	54.5¢	1.31%

Section VI – Accounting Information

1. GASB 43 and 45 set forth certain items of required supplementary information to be disclosed in the financial statements of VRS and the employers. One such item is a distribution of the number of members by type of membership, as follows:

NUMBER OF ALL MEMBERS AS OF JUNE 30, 2016

OPEB Plan	Active Members	Retired, Disabled, Eligible Deferred Vested, or Ported LTC Members	Total
GLI	362,678	173,134	535,812
HIC – State Employees	107,840	46,354	154,194
HIC – Teachers	149,018	64,327	213,345
HIC – Participating Political Subdivisions	21,846	4,890	26,736
HIC - Constitutional Officers	12,372	3,245	15,617
HIC – Social Service Employees	5,418	1,894	7,312
HIC – Registrars	216	62	278
VSDP	75,410	4,520	79,930
VLDP – Teachers	5,001	1	5,002
VLDP – Political Subdivisions	4,675	0	4,675

Section VI – Accounting Information (continued)

2. Another such item is the Schedule of Funding Progress, shown in the following table:

SCHEDULE OF FUNDING PROGRESS GROUP LIFE INSURANCE PROGRAM (\$ IN THOUSANDS)

Section VI – Accounting Information (continued)

3. The information presented in the required supplementary schedules was determined as part of the actuarial valuation at June 30, 2016. Additional information as of the latest actuarial valuation follows:

All OPEB Plans	
Valuation Date	6/30/2016
Amortization Method	Level Percentage of Pay, Closed
Actuarial Cost Method	Entry Age Normal
Payroll Growth Rate	3.00%
Actuarial Assumptions:	
Investment Rate of Return*	7.00%
*Includes inflation at	2.50%

The assumed investment rate of return reflects the fact a trust has been established to set aside assets that are legally held exclusively for postemployment benefits.

OPEB Plan	Effective Amortization Period (Years)
GLI	27.5
HIC – State Employees	27.0
HIC – Teachers	26.7
HIC – Participating Political Subdivisions	26.3
HIC - Constitutional Officers	26.4
HIC – Social Service Employees	26.7
HIC – Registrars	26.1
VSDP	24.5
VLDP – Teachers	18.7
VLDP – Political Subdivisions	19.8

Section VI – Accounting Information (continued)

OPEB Plan	Asset Valuation Method
GLI	5-year Smoothed Market
HIC – State Employees	5-year Smoothed Market
HIC – Teachers	5-year Smoothed Market
HIC – Participating Political Subdivisions	Market Value of Assets
HIC - Constitutional Officers	Market Value of Assets
HIC – Social Service Employees	Market Value of Assets
HIC – Registrars	Market Value of Assets
VSDP	5-year Smoothed Market
VLDP – Teachers	5-year Smoothed Market
VLDP – Political Subdivisions	5-year Smoothed Market

OPEB Plan	Benefit Increases
GLI	\$8,000 Minimum Benefit 2.25%
VSDP	LTD Post-Disablement Benefit Increases
VLDP - Teachers	Plan 1: 2.50%
VLDP – Political Subdivisions	Plan 2: 2.25%

4. On June 2, 2015, GASB Statement No. 74 and GASB Statement No. 75 (GASB 74 and 75) were unanimously adopted by the GASB Board. The disclosure requirements of GASB 74 and 75 will be similar to the disclosure requirements for pension benefits under GASB Statement No. 67 and GASB Statement No. 68. GASB 74 relates to accounting disclosures for plan sponsors and, as such, replaces GASB 43 beginning with fiscal years ending June 30, 2017. GASB 75 relates to accounting disclosures for contributing employers and, as such, replaces GASB 45 beginning with fiscal years ending June 30, 2018. GASB 74 and 75 will require applicable OPEB plan sponsors and contributing employers to disclose the net OPEB liability on the statement of financial position and book an accounting expense based upon the entry age normal actuarial cost method. Beyond the use of a specified actuarial cost method, GASB's new disclosure standards will also require the discount rate used to calculate liabilities to be based upon the yield of 20-year, tax-exempt municipal bonds and the expected rate of return on plan assets, to the extent plan assets are projected to be available for the payment of future benefits. Additionally, GASB 74 and 75 will bring about many other changes in the liability valuation and accounting disclosure processes

Section VI – Accounting Information (continued)

currently in place which are expected to significantly impact data collection, timing, and effort. As details for the new GASB OPEB disclosure standards emerge, planning and coordination between plan sponsors, contributing employers, actuaries, and auditors is recommended.

Section VII – Derivation of Experience Gains and Losses

CHANGES IN UNFUNDED ACTUARIAL ACCRUED LIABILITIES (UAAL) DURING FISCAL YEAR ENDING 2016 GROUP LIFE INSURANCE PROGRAM (\$ IN MILLIONS)

Schedule B – Plan Assets

GASB 43 and 45 define plan assets as resources, usually in the form of stocks, bonds, and other classes of investments, that have been segregated and restricted in a trust, or equivalent arrangement, in which (a) employer contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employers or plan administrator, for the payment of benefits in accordance with the terms of the plan.

For HIC – Participating Political Subdivisions, HIC – Constitutional Officers, HIC – Social Service Employees, and HIC – Registrars, the actuarial value of assets equals the market value of assets. For all other OPEB Plans, the actuarial value of assets is a smoothed market value, phasing-in investment returns above or below the 7.00% assumption over five years. This smoothed value is subject to a corridor that restricts the actuarial value of assets from being more than 120% or less than 80% of the market value of assets. The actuarial value of assets used for the valuation are shown on the following pages.

Schedule D – Outline of Actuarial Assumptions and Methods

Assumptions and Methods Applicable to all OPEB Plans

Investment Return Rate:	7.00% per annum, compounded annually.
Inflation Assumption:	2.50% per year.
Actuarial Cost Method:	Entry age normal cost method, allocated as a level percent of payroll, from first funding age to last age before terminal retirement age. Actuarial gains and losses, as they occur, are reflected in the unfunded actuarial accrued liability. See Schedule E for a detailed explanation.
Funding Period:	The amortization period of the legacy UAAL began at 30 years on June 30, 2013 and this amortization period is to decrease by one year on each subsequent valuation date until the legacy UAAL is fully amortized (amortization period of 0 years). With each subsequent valuation, a new amortization base will be used to amortize that portion of the UAAL not covered by the current balances of the previously established amortization bases. Here, each valuation's newly allocated share of the UAAL will be amortized over a closed 20-year period. In the event this funding policy produces an effective amortization period of greater than 30 years, a 30 year amortization period for the aggregate UAAL is used in accordance with GASB 43 and 45.
Payroll Growth Rate:	3.00% per annum.
Administrative Expenses:	The employer contribution rates include a rate for anticipated non-investment expenses.
Plan 1:	Members hired prior to July 1, 2010 and who were vested as of January 1, 2013.
Plan 2:	Members hired on or after July 1, 2010 but before January 1, 2014, or members hired prior to July 1, 2010 and who were not vested as of January 1, 2013. Members hired after January 1, 2014 in SPORS, VaLORS, and Political Subdivisions with LEOs/Fire Pension Benefit Coverage are in Plan 2.
Hybrid Plan:	State, Teachers, JRS, and Political Subdivisions with General Employee Pension Benefit Coverage members hired (for JRS, appointed or elected to an original term) on or after January 1, 2014 or members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1, 2014 through April 30, 2014. Members of SPORS, VaLORS, and Political Subdivisions with LEOs/Fire Pension Benefit Coverage are not eligible to participate in the Hybrid Plan.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Group Life Insurance Program

Asset Valuation Method:	The method of valuing assets is intended to recognize a “smoothed” market value of assets. Under this method, the difference between actual return on market value from investment experience and the expected return on market value is recognized over a five-year period. The resulting actuarial value of asset value cannot be less than 80% or more than 120% of the market value of assets.
Minimum Benefit:	In no event will the death benefit be less than \$8,000 for members who retire with at least 30 years of creditable service. The \$8,000 minimum is assumed to apply to the fiscal year ending June 30, 2016 and is assumed to increase annually, effective July 1, by 2.25% (the same annual increase percentage for any annual post-retirement supplement for retirees, as calculated for employees hired on or after July 1, 2010).
“Life Insurance Only” Retirees:	Results include an estimate of retiree liability for those groups not providing retiree census data. A liability equaling 10% of the active employee liability times the average retiree to active liability ratio is assumed.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Health Insurance Credit Program State Employees and Teachers

Asset Valuation Method:

The method of valuing assets is intended to recognize a “smoothed” market value of assets. Under this method, the difference between actual return on market value from investment experience and the expected return on market value is recognized over a five-year period. The resulting actuarial value of asset value cannot be less than 80% or more than 120% of the market value of assets.

Participation Rates:

95% of eligible future service retirees from active status are assumed to utilize the benefit plan.

Eligible future service retirees from deferred vested status are assumed to utilize the benefit plan as follows:

Duration Since Retirement	Participation Rate
First Year	55.0%
Second Year	65.0%
Third Year	70.0%
Fourth Year	75.0%
Fifth Year	80.0%
Sixth Year	85.0%
Seventh Year	90.0%
Eighth Year and Beyond	95.0%

Participation Rates (continued):

Eligible future disabled benefit recipients from active status are assumed to utilize the benefit plan as follows:

System	Participation
State/JRS	95%
Teachers	90%
SPORS/VaLORS	75%

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Health Insurance Credit Program State Employees and Teachers (continued)

Percentage Not Utilizing the Maximum Benefit:

The percentage of eligible future benefit recipients assumed to utilize the benefit plan, but not receive the maximum benefit for which they are eligible is as follows:

System	Percentage
State/JRS	10%
Teachers	20%
SPORS/VaLORS	10%

Percentage of Maximum Benefit Received:

Eligible future benefit recipients assumed to utilize the benefit plan, but not receive the maximum benefit for which they are eligible are assumed to initially receive 70% of the maximum benefit for which they are eligible.

Annual Increase in Benefit for Those Not Receiving the Maximum Benefit:

Benefit recipients assumed to utilize the benefit plan, but not receiving the maximum benefit for which they are eligible are assumed to have their benefit increase at the following rates:

Duration Since Retirement	Annual Increase in HIC benefit
1 Year	6.50%
2 – 3 Years	4.25%
4 or More Years	3.00%

Percentage of Future Eligible Deferred Vested Members Electing to Withdraw from VRS:

The percentage of future eligible deferred vested members assumed to withdraw from VRS is as follows:

System	Percentage
State/JRS	50%
Teachers	35%
SPORS/VaLORS	70%

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Health Insurance Credit Program State Employees and Teachers (continued)

Deferred Vested Deferral Period: Eligible deferred vested members are assumed to begin receiving benefits at the following ages:

System	Age of Initial Benefit Receipt
State/JRS/Teachers	
Plan 1 Members	60
Plan 2 and Hybrid Plan Members	
Born prior to 1938	60
Born after 1937 and before 1960	61
Born after 1959	62
SPORS/VaLORS	
Members with less than 25 years of service	55
Members with 25 or more years of service	50

ORP and UVA Retirees: Results include an estimate of retiree liability for those groups not providing retiree census data. A liability equaling 10% of the active employee liability times the average retiree to active liability ratio is assumed.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Health Insurance Credit Program Political Subdivisions and Special Coverage Groups

Asset Valuation Method: Market value of assets.

Participation Rates: 85% of eligible future service retirees from active status are assumed to utilize the benefit plan. 45.00% of eligible future disability retirees will utilize the benefit.

Eligible future service retirees from deferred vested status are assumed to utilize the benefit plan as follows:

Duration Since Retirement	Participation Rate
First Year	55.0%
Second Year	65.0%
Third Year	70.0%
Fourth Year	75.0%
Fifth Year	80.0%
Sixth Year	85.0%
Seventh Year	90.0%
Eighth Year and Beyond	95.0%

Percentage Not Utilizing the Maximum Benefit:

5% of eligible future benefit recipients are assumed to utilize the benefit plan, but not receive the maximum benefit for which they are eligible.

Percentage of Maximum Benefit Received:

Eligible future benefit recipients assumed to utilize the benefit plan, but not receive the maximum benefit for which they are eligible are assumed to initially receive 70% of the maximum benefit for which they are eligible.

Annual Increase in Benefit for Those Not Receiving the Maximum Benefit:

Benefit recipients assumed to utilize the benefit plan, but not receiving the maximum benefit for which they are eligible are assumed to have their benefit increase at the following rates:

Duration Since Retirement	Annual Increase in HIC benefit
1 Year	6.50%
2 – 3 Years	4.25%
4 or More Years	3.00%

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Health Insurance Credit Program Political Subdivisions and Special Coverage Groups (continued)

**Percentage of Future Eligible
Deferred Vested Members Electing
to Withdraw from VRS:**

45% of future eligible deferred vested members are assumed to withdraw from VRS.

Deferred Vested Deferral Period:

Eligible deferred vested members with LEOs/Fire Pension Benefit Coverage are assumed to receive benefits at age 55 (if the member has less than 25 years of service at retirement) and at age 50 (if the member has 25 or more years of service at retirement). Eligible deferred vested members with General Employee Pension Benefit Coverage are assumed to receive benefits as follows:

Political Subdivisions and Special Coverage Groups	Age of Initial Benefit Receipt
Plan 1 Members	60
Plan 2 and Hybrid Plan Members	
Born prior to 1938	60
Born after 1937 and before 1960	61
Born after 1959	62

Employer Groups:

The political subdivisions have been divided into two groups. Group A consists of: City of Virginia Beach, Henrico County, Prince William County, Chesterfield County, City of Chesapeake, City of Alexandria, City of Hampton, Loudoun County, City of Lynchburg, and the City of Portsmouth. Group B is all other political subdivisions not included in Group A.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Sickness and Disability Program Long-Term Disability Benefits and Long-Term Care Benefits

Asset Valuation Method:	The method of valuing assets is intended to recognize a “smoothed” market value of assets. Under this method, the difference between actual return on market value from investment experience and the expected return on market value is recognized over a five-year period. The resulting actuarial value of asset value cannot be less than 80% or more than 120% of the market value of assets.
Health Insurance Credit and Group Life Insurance Benefits	Health Insurance Credit and Group Life Insurance benefits provided by VSDP are valued under the respective plans.
Disability:	A Plan 1 Member hired prior to January 1, 1999 and who has elected VSDP coverage or any member hired on or after January 1, 1999. Applicable members hired prior to July 1, 2009 are eligible from the first day of employment for work related and non-work related VSDP disability benefits. Applicable members hired on or after July 1, 2009 are eligible from the first day of employment for work-related VSDP disability benefits, but must have a minimum of one year of service to be eligible for non-work related VSDP disability benefits.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Sickness and Disability Program Long-Term Disability Benefits

Cost-Of-Living Increase:

Plan 1 Members: 2.50% per year, compounded annually.

Plan 2 and Hybrid Members: 2.25% per year, compounded annually.

Liability Assumed for Disabled Members in Waiting Period:

The liability associated for those disabled and not yet eligible to receive benefits was based upon the development method in which plan experience was applied to those claims reported in the second half of the most recent fiscal year

Income Replacement for Future Disabled Members:

61% of a member's pre-disability income.

Offsets for Disabled Members:

It is assumed that the offset amounts reported by the administrator will continue to apply to each member's benefit until the benefit expires. For members with less than six years of disability and no current benefit offsets, benefit amounts are adjusted to reflect future offsets as follows:

Year of Long-Term Disability	Percentage Receiving Offsets in the Next Year if Currently Not in Receipt	Average Percentage of Full Benefit Paid if in Receipt of Offsets
1	38%	25%
2	32%	25%
3	24%	25%
4	14%	25%
5	14%	25%
6 and Longer	0%	30%

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Sickness and Disability Program Long-Term Disability Benefits (continued)

Offsets for Active Members:

The following benefit adjustments are assumed for the expected future monthly benefits to be paid to future disabled members. The benefit adjustments are consistent with recent experience.

Year of Long-Term Disability	Benefit Adjustment Factor
1	0.745
2	0.557
3	0.493
4	0.439
5	0.414
6 and Longer	0.378

Rates of Termination of Benefits Due to Death or Recovery:

2012 Group Long Term Disability Valuation Table (2012 GLDT) as proposed by the Society of Actuaries' Group Disability Experience Committee for use by the National Association of Insurance Commissioners. Used as a basis those rates applicable to plans with a six-month elimination period, "Own Occupation" definition of disability, initial maximum guaranteed benefit of \$1,900, "No Diagnosis" cause of disability, 15% margin for recovery, 28% margin for deaths, and adjusted for prior five years of VRS experience with the following adjustment factors:

Month of Disability	Male	Female
4 - 24	0.944	0.870
25 - 60	1.016	0.992
61 - 120	1.086	1.083
121 and over	1.066	1.095

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Sickness and Disability Program Long-Term Care Benefits

- Disabled Life Reserve:** The liability associated for those participants assumed to be in a current benefit period was based upon the development method in which prior experience was applied to the current claim duration and prior payments made for each individual.
- Incurred But Not Reported Reserve:** The liability associated for those participants with claims that have been incurred but not reported (IBNR), as of the valuation date, to the administrator was based upon the development method in which prior experience for claim incidence and expected benefits payments was applied to the covered population.
- Morbidity:** CMC reviewed the rates developed by the prior actuary against rates developed using the Society of Actuaries (SOA) Long Term Care basic experience rate tables and made no modifications. While separate rates for assisted living facility claims are not used, our review indicates the nursing facility rates are reasonable based upon the benefit structure and a comparison to the combined experience produced by the SOA's tables. As experience develops the rates will need to be reviewed and adjusted accordingly.

Unadjusted Claim Incidence Rates				
Attained Age	Nursing Facility		Home Health

60%	1.57	1.11
65%	1.51	1.10
70%	1.44	1.09
75%	1.38	1.09
80%	1.31	1.08
85%	1.25	1.07
90%	1.18	1.06
95%	1.12	1.06
100%	1.05	1.05

* The selection factors are assumed to decrease linearly over a 10 year period.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Sickness and Disability Program Long-Term Care Benefits (continued)

Morbidity (continued):

The duration of a claim is based upon the attained age at incidence, gender, and type of claim.

Attained Age	Length of Stay (Months)			
	Nursing Facility		Home Health	
	Male	Female	Male	Female
25	11.15	13.96	19.14	12.54
30	11.60	14.42	18.81	12.47
35	12.04	14.98	18.67	12.45
40	12.29	14.87	16.77	13.48
45	12.50	14.77	14.99	14.56
50	12.90	14.16	15.36	13.78
55	13.30	13.52	15.77	13.02
60	12.99	14.12	15.15	12.40
65	13.36	14.30	12.84	12.80
70	14.00	14.32	11.80	13.53
75	13.99	15.09	11.50	13.50
80	13.76	15.61	10.90	13.18
85	13.62	15.90	10.05	12.86
90	13.09	16.19	8.78	12.70
95	12.30	16.51	8.23	12.66
100	11.32	16.10	8.70	13.34
105	9.84	14.77	9.56	14.60
110+	8.31	13.32	9.33	14.89

Daily Benefit Amount:

\$96 per day indemnity benefit paid for service in a nursing home. The daily benefit for home health care coverage is 50% of the nursing home benefit.

Daily Benefit Amount Increases:

The valuation does not include a provision for increases (i.e., 5% compound increase every five years). If the benefit policy is to provide increases at regular intervals, the resulting liability will be materially greater than the results presented (i.e., inflation increases are not assumed to be pre-funded).

Benefit Maximums:

A lifetime maximum benefit of \$70,080 (reflects a two year maximum coverage period based upon a \$96 per day indemnity benefit).

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Sickness and Disability Program Long-Term Care Benefits (continued)

Porting Rates:

Porting rate assumptions are based upon experience over the first five years of the program, with substantial increases over the life of the program. CMC reviewed the rates developed by the prior actuary and made no modifications. As the porting rates have a significant impact on results; experience, as it develops, will need to be reviewed and the rates adjusted accordingly. Porting rates by age of entry into VSDP and length of VSDP membership are provided in the following table.

VSDP Entry Age	Years of VSDP Membership										
	0	5	10	15	20	25	30	35	40	45	50+
25	0.1000	0.1010	0.1144	0.1313	0.1739	0.2555	0.3693	0.5263	0.6812	0.8874	1.0000

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Sickness and Disability Program Long-Term Care Benefits (continued)

Porting Premiums:

While actively employed or receiving LTD benefits, a member receives coverage in the amount currently in place for the entire actively employed group. Upon termination of employment, a member has the option to port the amount of coverage current for the group by paying a premium. CMC reviewed the rates developed by the prior actuary for adequacy and made no modifications. As experience develops the rates may need to be reviewed and adjusted accordingly.

Monthly Porting Premium Rates Per \$1 of Daily Benefit Amount

37	0.065	55	0.213	73	1.105		

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Disability Benefits and Long-Term Care Benefits

Asset Valuation Method:	The method of valuing assets is intended to recognize a “smoothed” market value of assets. Under this method, the difference between actual return on market value from investment experience and the expected return on market value is recognized over a five-year period. The resulting actuarial value of asset value cannot be less than 80% or more than 120% of the market value of assets.
Health Insurance Credit and Group Life Insurance Benefits	Health Insurance Credit (if applicable) and Group Life Insurance benefits provided under VLDP are valued under the respective plans.
Disability:	Applicable members covered under the Hybrid Plan are eligible from the first day of employment for work-related VLDP disability benefits, but must have a minimum of one year of service to be eligible for non-work related VLDP disability benefits.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Disability Benefits

Cost-Of-Living Increase:	0.00% per year, compounded annually.
Liability Assumed for Disabled Members in Waiting Period:	The liability associated for those disabled and not yet eligible to receive benefits was based upon the expected number of long-term disabilities incurred during the period of January 1, 2016 and June 30, 2016.
Income Replacement for Future Disabled Members:	61% of a member's pre-disability income.
Offsets for Disabled Members:	It is assumed that the offset amounts reported by the administrator will continue to apply to each member's benefit until the benefit expires. For members with less than six years of disability and no current benefit offsets, benefit amounts are adjusted to reflect future offsets as follows:

Year of Long-Term Disability	Percentage Receiving Offsets in the Next Year if Currently Not in Receipt	Average Percentage of Full Benefit Paid if in Receipt of Offsets
1	38%	25%
2	32%	25%
3	24%	25%
4	14%	25%
5	14%	25%
6 and Longer	0%	30%

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Disability Benefits (continued)

Offsets for Active Members:

The following benefit adjustments are assumed for the expected future monthly benefits to be paid to future disabled members. The benefit adjustments are consistent with recent experience.

Year of Long-Term Disability	Benefit Adjustment Factor
1	0.745
2	0.557
3	0.493
4	0.439
5	0.414
6 and Longer	0.378

Rates of Termination of Benefits Due to Death or Recovery:

2012 Group Long Term Disability Valuation Table (2012 GLDT) as proposed by the Society of Actuaries' Group Disability Experience Committee for use by the National Association of Insurance Commissioners. Used as a basis those rates applicable to plans with a six-month elimination period, "Own Occupation" definition of disability, initial maximum guaranteed benefit of \$1,900, "No Diagnosis" cause of disability, 15% margin for recovery, 28% margin for deaths, and adjusted for prior five years of VRS experience with the following adjustment factors:

Adjustment Factor

Month of Disability	Male	Female
4 - 24	0.944	0.870
25 - 60	1.016	0.992
61 - 120	1.086	1.083
121 and over	1.066	1.095

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Care Benefits

- Disabled Life Reserve:** The liability associated for those participants assumed to be in a current benefit period was based upon the development method in which prior experience was applied to the current claim duration and prior payments made for each individual.
- Incurred But Not Reported Reserve:** The liability associated for those participants with claims that have been incurred but not reported (IBNR) as of the valuation date to the administrator was based upon the development method in which prior experience for claim incidence and expected benefits payments was applied to the covered population.
- Morbidity:** CMC reviewed the rates developed by the prior actuary against rates developed using the Society of Actuaries (SOA) Long Term Care basic experience rate tables and made no modifications. While separate rates for assisted living facility claims are not used, our review indicates the nursing facility rates are reasonable based upon the benefit structure and a comparison to the combined experience produced by the SOA's tables. As experience develops the rates will need to be reviewed and adjusted accordingly.

Unadjusted Claim Incidence Rates				
Attained Age	Nursing Facility		Home Health	
	Male	Female	Male	Female

18	0.890	0.890	0.893
19	0.915	0.915	0.918
20+	0.945	0.945	0.947

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Care Benefits (continued)

Morbidity (continued):

For ported members, the unadjusted claim incidence rates are adjusted based upon the likelihood of porting and the number of years since porting.

Claim Incidence Selection Factors		
Ported Members		
Porting Rate	Initial Year Of Porting	Ultimate Rate*
0%	2.35	1.19
5%	2.29	1.18
10%	2.22	1.18
15%	2.16	1.17
20%	2.09	1.16
25%	2.03	1.16
30%	1.96	1.15
35%	1.90	1.14
40%	1.83	1.13
45%	1.77	1.13
50%	1.70	1.12
55%	1.64	1.11
60%	1.57	1.11
65%	1.51	1.10
70%	1.44	1.09
75%	1.38	1.09
80%	1.31	1.08
85%	1.25	1.07
90%	1.18	1.06
95%	1.12	1.06
100%	1.05	1.05

* The selection factors are assumed to decrease linearly over a 10 year period.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Care Benefits (continued)

Morbidity (continued):

The duration of a claim is based upon the attained age at incidence, gender, and type of claim.

Attained Age	Length of Stay (Months)			
	Nursing Facility		Home Health	
	Male	Female	Male	Female
25	11.15	13.96	19.14	12.54
30	11.60	14.42	18.81	12.47
35	12.04	14.98	18.67	12.45
40	12.29	14.87	16.77	13.48
45	12.50	14.77	14.99	14.56
50	12.90	14.16	15.36	13.78
55	13.30	13.52	15.77	13.02
60	12.99	14.12	15.15	12.40
65	13.36	14.30	12.84	12.80
70	14.00	14.32	11.80	13.53
75	13.99	15.09	11.50	13.50
80	13.76	15.61	10.90	13.18
85	13.62	15.90	10.05	12.86
90	13.09	16.19	8.78	12.70
95	12.30	16.51	8.23	12.66
100	11.32	16.10	8.70	13.34
105	9.84	14.77	9.56	14.60
110+	8.31	13.32	9.33	14.89

Daily Benefit Amount:

\$96 per day indemnity benefit paid for service in a nursing home. The daily benefit for home health care coverage is 50% of the nursing home benefit.

Daily Benefit Amount Increases:

The valuation does not include a provision for increases (i.e., 5% compound increase every five years). If the benefit policy is to provide increases at regular intervals, the resulting liability will be materially greater than the results presented (i.e., inflation increases are not assumed to be pre-funded).

Benefit Maximums:

A lifetime maximum benefit of \$70,080 (reflects a two year maximum coverage period based upon a \$96 per day indemnity benefit).

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Care Benefits (continued)

Porting Rates:

Porting rate assumptions are based upon experience over the first five years of the program, with substantial increases over the life of the program. CMC reviewed the rates developed by the prior actuary and made no modifications. As the porting rates have a significant impact on results; experience, as it develops, will need to be reviewed and the rates adjusted accordingly. Porting rates by age of entry into VLDP and length of VLDP membership are provided in the following table.

VLDP Entry Age	Years of VLDP Membership										
	0	5	10	15	20	25	30	35	40	45	50+
25	0.1000	0.1010	0.1144	0.1313	0.1739	0.2555	0.3693	0.5263	0.6812	0.8874	1.0000
30	0.1000	0.1019	0.1234	0.1534	0.2185	0.3194	0.4537	0.5822	0.7574	0.9609	1.0000

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

Assumptions and Methods Applicable to the Virginia Local Disability Program Long-Term Care Benefits (continued)

Porting Premiums:

While actively employed or receiving LTD benefits, a member receives coverage in the amount currently in place for the entire actively employed group. Upon termination of employment, a member has the option to port the amount of coverage current for the group by paying a premium. CMC reviewed the rates developed by the prior actuary for adequacy and made no modifications. As experience develops the rates may need to be reviewed and adjusted accordingly.

Monthly Porting Premium Rates Per \$1 of Daily Benefit Amount							
VLDP Entry Age	Rate	VLDP Entry Age	Rate	VLDP Entry Age	Rate	VLDP Entry Age	Rate

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

STATE*

NORMAL RETIREMENT ELIGIBILITY:

- Plan 1 Members: A member may retire with unreduced pension benefits upon Normal Retirement on or after age 65 with credit for five years of service.
- Plan 2 and Hybrid Plan Members: A member may retire with unreduced pension benefits upon Normal Retirement once they attain their normal Social Security retirement age and have at least five years of service.

EARLY RETIREMENT ELIGIBILITY:

- Plan 1 Members: A member may retire early with unreduced pension benefits after reaching age 50 with at least 30 years of service credit. A member may retire early with reduced pension benefits after reaching age 50 with at least ten years of service credit, or age 55 with credit for at least five years of service.
- Plan 2 and Hybrid Plan Members: A member may retire early with unreduced pension benefits upon the sum of their age and their service being 90 (Rule of 90). A member may retire early with reduced pension benefits after reaching age 60 with at least five years of service credit.

DISABILITY – NON-VSDP:

A Plan 1 member hired prior to January 1, 1999 and who has declined VSDP coverage is eligible for disability retirement benefits from the first day of employment.

DISABILITY – VSDP:

A Plan 1 member hired prior to January 1, 1999 and who has elected VSDP coverage or any member hired on or after January 1, 1999. Applicable members hired prior to July 1, 2009 are eligible from the first day of employment for work related and non-work related VSDP disability benefits. Applicable members hired on or after July 1, 2009 are eligible from the first day of employment for work-related VSDP disability benefits, but must have a minimum of one year of service to be eligible for non-work related VSDP disability benefits.

*The actuarial assumptions for State are also applied to the applicable members of the Optional Retirement Plan (ORP).

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

STATE

MORTALITY RATES:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with Males set forward 2 years and Females set back 3 years.

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with Females set back 1 year.

Post-Disablement:

RP-2000 Disabled Life Mortality Table with Males set back 3 years and no provision for future mortality improvement.

STATE

SALARY INCREASE RATES: The following total salary increase rates are used. The total salary increase rate consists of an inflation rate of 2.50%, a productivity component of 1.00%, and a variable merit component that is dependent on years of service.

Pay Increase Assumption	
Years of Service	Total Increase (Next Year)
1 - 2	5.35%
3	4.75
4 - 6	4.45
7	4.35
8	4.25
9 - 10	4.00
11 - 19	3.65
20 or more	3.50

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

TEACHERS*

NORMAL RETIREMENT ELIGIBILITY:

- Plan 1 Members: A member may retire with unreduced pension benefits upon Normal Retirement on or after age 65 with credit for five years of service.
- Plan 2 and Hybrid Plan Members: A member may retire with unreduced pension benefits upon Normal Retirement once they attain their normal Social Security retirement age and have at least five years of service.

EARLY RETIREMENT ELIGIBILITY:

- Plan 1 Members: A member may retire early with unreduced pension benefits after reaching age 50 with at least 30 years of service credit. A member may retire early with reduced pension benefits after reaching age 50 with at least ten years of service credit, or age 55 with credit for at least five years of service.
- Plan 2 and Hybrid Plan Members: A member may retire early with unreduced pension benefits upon the sum of their age and their service being 90 (Rule of 90). A member may retire early with reduced pension benefits after reaching age 60 with at least five years of service credit.

DISABILITY – NON-HYBRID:

Plan 1 and Plan 2 members are eligible for disability retirement benefits from the first day of employment.

DISABILITY – HYBRID:

Hybrid Plan members are eligible from the first day of employment for work-related VLDP disability benefits (or, if the employer opted-out of VLDP during the election period, a comparable plan), but must have a minimum of one year of service to be eligible for non-work related VLDP disability benefits.

*The actuarial assumptions for Teachers are also applied to the applicable members of the Optional Retirement Plan (ORP).

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

TEACHERS

MORTALITY RATES:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with Males set back 3 years and Females set back 5 years.

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with Males set back 2 years and Females set back 3 years.

Post-Disablement:

RP-2000 Disabled Life Mortality Table Projected to 2020 with Males set back 1 year and no provision for future mortality improvement.

Mortality Rates						
Age	Male			Female		
	Pre Retirement	Post Retirement	Post Disablement	Pre Retirement	Post Retirement	Post Disablement

TEACHERS

SALARY INCREASE RATES: The following total salary increase rates are used. The total salary increase rate consists of an inflation rate of 2.50%, a productivity component of 1.00%, and a variable merit component that is dependent on years of service.

Pay Increase Assumption	
Years of Service	Total Increase (Next Year)
1	5.95%
2	5.85
3	5.85
4 - 6	5.45
7 - 9	5.35
10 - 12	4.85
13 - 14	4.75
15 - 16	4.65
17	4.55
18 - 19	4.45
20 or more	3.50

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

SPORS

NORMAL RETIREMENT ELIGIBILITY:

A member may retire with an unreduced pension benefit upon Normal Retirement on or after age 60 with credit for five years of service.

EARLY RETIREMENT ELIGIBILITY:

A member may retire early with a reduced pension benefit after reaching age 50 with at least five years of service credit.

DISABILITY – NON-VSDP:

A member hired prior to 1/1/1999 and who has declined VSDP coverage is eligible for disability benefits from the first day of employment.

DISABILITY – VSDP:

A Plan 1 member hired prior to January 1, 1999 and who has elected VSDP coverage or any member hired on or after January 1, 1999. Applicable members hired prior to July 1, 2009 are eligible from the first day of employment for work related and non-work related VSDP disability benefits. Applicable members hired on or after July 1, 2009 are eligible from the first day of employment for work-related VSDP disability benefits, but must have a minimum of one year of service to be eligible for non-work related VSDP disability benefits.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

SPORS

MORTALITY RATES:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with Males set forward 5 years and Females set back 3 years.

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with Females set back 1 year.

Post-Disablement:

RP-2000 Disabled Life Mortality Table with Males set back 3 years and no provision for future mortality improvement.

SPORS

SALARY INCREASE RATES: The following total salary increase rates are used. The total salary increase rate consists of an inflation rate of 2.50%, a productivity component of 1.00%, and a variable merit component that is dependent on years of service.

Pay Increase Assumption	
Years of Service	Total Increase (Next Year)
1 - 4	4.75%
5	4.65
6 - 9	4.40
10 - 19	4.00
20 or more	3.50

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

JRS

WEIGHTED SERVICE CREDIT:

Plan 1 Members: Employees receive credit of one year of service multiplied by a weighting factor of 3.5 (2.5 for judges entering JRS on or after January 1, 1995). Any non-judicial VRS service credit is not weighted.

Plan 2 and Hybrid Plan Members: Employees receive credit of one year of service multiplied by a weighting factor of:

- 1.5 for judges entering JRS before age 45,
- 2.0 for judges entering JRS between ages 45 and 54, or
- 2.5 for judges entering JRS at age 55 or older.

Any non-judicial VRS service credit is not weighted.

NORMAL RETIREMENT ELIGIBILITY:

A member may retire upon Normal Retirement on or after age 65 with credit for five years of service, or age 60 with at least 30 years of service credit. Effective June 1, 2017, the mandatory retirement age for judges is age 73.

EARLY RETIREMENT ELIGIBILITY:

A member may retire early with unreduced pension benefits at age 60 with at least 30 years of service or a member may retire early with reduced pension benefits after reaching age 55 with at least five years of service credit.

DISABILITY – NON-HYBRID:

Plan 1 and Plan 2 members are eligible for disability retirement benefits from the first day of employment.

DISABILITY – HYBRID:

Hybrid Plan members are eligible from the first day of employment for work-related disability benefits, but must have a minimum of one year of service to be eligible for non-work related disability benefits.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

JRS

MORTALITY RATES:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with Males set forward 2 years and Females set back 3 years.

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with Females set back 1 year.

Post-Disablement:

RP-2000 Disabled Life Mortality Table with Males set back 3 years and no provision for future mortality improvement.

VaLORS

SALARY INCREASE RATES: The following total salary increase rates are used. The total salary increase rate consists of an inflation rate of 2.50%, a productivity component of 1.00%, and a variable merit component that is dependent on years of service.

Pay Increase Assumption	
Years of Service	Total Increase (Next Year)
1 - 4	4.75%
5	4.65
6 - 9	4.40
10 - 19	4.00
20 or more	3.50

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

POLITICAL SUBDIVISIONS

GROUP A

Assumptions for Participants with General Employee Pension Benefit Coverage

NORMAL RETIREMENT ELIGIBILITY:

Plan 1 Members: A member may retire with unreduced pension benefits upon Normal Retirement on or after age 65 with credit for five years of service.

Plan 2 and Hybrid Plan Members: A member may retire with unreduced pension benefits upon Normal Retirement once they attain their normal Social Security retirement age and have at least five years of service.

EARLY RETIREMENT ELIGIBILITY:

Plan 1 Members: A member may retire early with unreduced pension benefits after reaching age 50 with at least 30 years of service credit. A member may retire early with reduced pension benefits after reaching age 50 with at least ten years of service credit, or age 55 with credit for at least five years of service.

Plan 2 and Hybrid Plan Members: A member may retire early with unreduced pension benefits upon the sum of their age and their service being 90 (Rule of 90). A member may retire early with reduced pension benefits after reaching age 60 with at least five years of service credit.

DISABILITY – NON-HYBRID:

Plan 1 and Plan 2 members are eligible for disability retirement benefits from the first day of employment.

DISABILITY – HYBRID:

Hybrid Plan members are eligible from the first day of employment for work-related VLDP disability benefits (or, if the employer opted-out of VLDP during the election period, a comparable plan), but must have a minimum of one year of service to be eligible for non-work related VLDP disability benefits.

Schedule D – Outline of Actuarial Assumptions and Methods (continued)

POLITICAL SUBDIVISIONS GROUP A

Assumptions for Participants with General Employee Pension Benefit Coverage

MORTALITY RATES:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with Males set forward 4 years and Females set back 2 years.

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with Males set forward 1 year.

Post-Disablement:

RP-2000 Disabled Life Mortality Table with Males set back 3 years and no provision for future mortality improvement.

GROUP B*

Assumptions for Participants with General Employee Pension Benefit Coverage

NORMAL RETIREMENT ELIGIBILITY:

Plan 1 Members:

A member may retire with unreduced pension benefits upon Normal Retirement on or after age 65 with credit for five years of service.

Plan 2 and Hybrid Plan Members:

A member may retire with unreduced pension benefits upon Normal Retirement once they attain their normal Social Security retirement age and have at least five years of service.

EARLY RETIREMENT ELIGIBILITY:

Plan 1 Members:

A member may retire early with unreduced pension benefits after reaching age 50 with at least 30 years service credit. A member may retire early with reduced pension benefits after reaching age 50 with at least ten years of service credit, or age 55 with credit for at least five years of service.

Plan 2 and Hybrid Plan Members:

A member may retire early with unreduced pension benefits upon the sum of their age and their service being 90 (Rule of 90). A member may retire early with reduced pension benefits after reaching age 60 with at least five years of service credit.

DISABILITY – NON-VLDP:

Plan 1 and Plan 2 members are eligible for disability retirement benefits from the first day of employment.

DISABILITY – VLDP:

Hybrid Plan members are eligible from the first day of employment for work-related VLDP disability benefits (or, if the employer opted-out of VLDP during the election period, a comparable plan), but must have a minimum of one year of service to be eligible for non-work related VLDP disability benefits.

*The actuarial assumptions for Political Subdivisions Group B are also applied to members of the political subdivisions not providing VRS pension benefits.

Pay Increase Assumption	
Years of Service	Total Increase (Next Year)
1 – 4	4.75%
5	4.65
6 – 9	4.40
10 - 19	4.00
20 or more	3.50

Schedule E – Actuarial Cost Method

The valuation is prepared on the projected benefit basis, which is used to determine the present value of each member's expected benefit payable upon death after retirement or disability. The calculations are based on the member's age, years of service, gender, and an assumed future interest earnings rate (currently 7.00%). The calculations consider the probability of a member's death or termination of employment prior to becoming eligible for a benefit and the probability of the member terminating with a service or disability benefit. The present value of the expected benefits payable to active members is added to the present value of the expected future payments to current benefit recipients to obtain the present value of all expected benefits payable to the present group of members.

The employer contributions required to support the benefits of each OPEB Plan are determined following a level funding approach, and consist of a normal contribution and an accrued liability contribution.

The normal contribution is determined using the "entry age normal" method (EAN). Under this method, a calculation is made for postemployment benefits to determine the uniform and constant percentage rate of employer contribution which, if applied to the compensation of the average new member during the entire period of his anticipated covered service, would be required to meet the cost of all benefits payable on a member's behalf. Administrative expenses are included in the normal contribution.

The unfunded accrued liability is determined by subtracting the current assets and the present value of prospective employer normal contributions from the present value of expected benefits to be paid from each OPEB Plan. The accrued liability contribution amortizes the balance of the unfunded accrued liability over a period of years from the valuation date.

Schedule F – Summary of Main Plan Provisions as Interpreted for Valuation Purposes

GROUP LIFE INSURANCE PROGRAM

The Group Life Insurance Program is administered by the Board of Trustees for the Virginia Retirement System (VRS). Contributions received are held in trust. Premiums for active employees are paid to Minnesota Life which in turn pays the life insurance proceeds to the beneficiaries. Payments for postemployment benefits are made by Minnesota Life and reimbursed by the Trust. The Board sets administrative policy and determines the allocation of the assets held for investment.

The following persons are eligible to participate in the Group Life Insurance Program: Teachers, State Employees, State Police (SPORS), Judicial Employees (JRS), Virginia Law Officers (VaLORS) and those VRS members receiving long-term disability benefits from the Virginia Sickness and Disability Program (VSDP), the Virginia Local Disability Program (VLDP), or, if the employer opted-out of VLDP during the election period, a comparable plan. In addition, local political subdivisions may elect coverage. Substantially all local units covered by VRS have elected coverage in the Group Life Insurance Program, as have other political subdivisions not providing VRS pension benefits. Also, certain members of the Optional Retirement Plan (ORP) have life insurance coverage. Although certain members who were employed at the time of initial coverage under the Group Life Insurance Program may decline coverage, substantially all full-time, permanent employees participate.

Each active member is entitled to a death benefit from this plan equal to two times the member's annual rate of compensation, rounded up to the next higher multiple of \$1,000. This benefit is provided for by the purchase of a group term life insurance contract from an insurance company. Active members may also be covered by Accidental Death and Dismemberment insurance, and they may elect additional amounts of insurance. These benefits are excluded from this valuation.

Each service retiree will be entitled to a death benefit from this plan equal to the amount in effect immediately before his/her termination or retirement, reduced by 25% on January 1 of the first full year following the date the employee is separated from service and each year thereafter. In no event will the death benefit be less than 25% of the amount in effect at the date of termination or retirement or \$8,000 for members who retire with at least 30 years of creditable service (the \$8,000 is increased by the same percentage as any annual post-retirement supplement for retirees, as calculated for employees hired on or after July 1, 2010).

Each disabled member, including those receiving benefits from VSDP or VLDP, will be entitled to a death benefit from this plan, similar to the service retiree benefit, except the 25% per year reduction does not begin until the member reaches Normal Retirement Age, or the retirement date, if later. Members participating in VLDP (or a comparable plan) and State, VaLORS, and SPORS members participating in VSDP and hired on or after July 1, 2009 need at least one year of service before the member is eligible for a non-service related life insurance benefit from the Plan.

The postemployment death benefit is paid for by an addition to the contribution required to provide the active member benefit. While the active member portion of the contribution is used to purchase group term life insurance from an insurance company, the postemployment portion of the contribution is held in a trust until required to pay benefits. The postemployment contribution is actuarially determined by this valuation.

Schedule F – Summary of Main Plan Provisions as Interpreted for Valuation Purposes (continued)

HEALTH INSURANCE CREDIT PROGRAM

If an eligible employee has worked for more than one employer in VRS, for the purpose of this valuation, their most current (or last) employer providing HIC benefits assumes full liability for that employee.

STATE EMPLOYEES (State, SPORS, JRS, VaLORS, ORP, and UVA)

The Commonwealth shall provide a credit toward the cost of health insurance coverage for any former state employee who retired under the Virginia Retirement System (State), State Police Officers' Retirement System (SPORS), Judicial Retirement System (JRS), or Virginia Law Officers' Retirement System (VaLORS) and who rendered at least 15 years of total creditable service under the Retirement System or rendered service as a temporary employee of the General Assembly in 1972 and became a member of the retirement system from 1972 to 1985 immediately following such temporary service. The amount of each monthly health insurance credit shall be \$4 per year of creditable service, which shall be credited monthly to any retired employee participating in the Health Insurance Credit Program. However, such credit shall not exceed a beneficiary's qualified medical expenses.

An employee who retired under an Optional Retirement Plan (ORP) or the University of Virginia (UVA) may qualify for the health insurance credit if the retiree has at least 15 years of coverage under the ORP, UVA, or a combination of VRS service credit and ORP or UVA coverage equal to at least 15 years.

Disabled State retirees and Virginia Sickness and Disability Program (VSDP) beneficiaries shall receive a maximum monthly credit, which is the greater of (i) \$120, (ii) \$4 per year for each year of creditable service at the time of disability retirement, or (iii) \$4 per year for each year of creditable service at the time of eligibility for postemployment disability benefits. State, VaLORS, and SPORS employees participating in VSDP who receive long-term disability benefits from VSDP shall receive a monthly credit of \$120, or \$4 per year of creditable service at the time of disability, whichever is greater. Those employees participating in VSDP and hired on or after July 1, 2009 are required to earn one year of service to be eligible for the non-service related Health Insurance Credit disability benefit.

TEACHERS

A member who retired under the Virginia Retirement System and who rendered at least 15 years of total creditable service under VRS shall receive a health insurance credit to his monthly retirement allowance, which shall be applied to reduce the retired member's health insurance premium cost. The amount of each monthly health insurance credit shall be \$4 for each full year of the retired member's creditable service. However, such credit shall not exceed a beneficiary's qualified medical expenses.

Disabled Teacher retirees and Virginia Local Disability Program (VLDP) beneficiaries (or, if the employer opted-out of VLDP during the election period, a comparable plan) shall receive a monthly health insurance credit of \$4 multiplied by the lesser of (i) twice the amount of his creditable service or (ii) the amount of creditable service he would have completed at age 60 if he had remained in service to that age. Eligibility for the credit shall be determined in a manner prescribed by the Virginia Retirement System. Those employees participating in VLDP (or, if the employer opted-out of VLDP during the election period, a comparable plan) and hired on or after July 1, 2009 are required to earn one year of service to be eligible for the non-service related Health Insurance Credit disability benefit.

Schedule F –Summary of Main Plan Provisions as Interpreted for Valuation Purposes (continued)

HEALTH INSURANCE CREDIT PROGRAM (CONTINUED)

POLITICAL SUBDIVISIONS

Political subdivisions participating in the Virginia Retirement System (VRS) may elect to provide a credit toward the cost of health insurance coverage for any former employee who retired under VRS with at least 15 years of total creditable service. The amount of each monthly health insurance credit shall be \$1.50 per year of creditable service, which amount shall be paid monthly to any retired employee participating in the Health Insurance Credit Program. However, such credit shall not exceed the health insurance premium for retiree.

Disabled retirees are eligible to receive a maximum monthly credit of \$45.

In addition to the above mentioned health insurance credit, Pittsylvania County and the City of Roanoke have chosen to provide an additional health insurance credit of \$1.00 per month for each full year of the retired member's creditable service, not to exceed a maximum monthly credit of \$30. This additional benefit is available to constitutional officers, employees of constitutional officers, general registrars, employees of general registrars, and local social service employees.

SPECIAL COVERGE GROUPS

A local officer, as defined in the Code of Virginia §51.1-124.3, retired under the Virginia Retirement System (VRS) who rendered at least 15 years of total creditable service under VRS shall receive a monthly health insurance credit of \$1.50 per year of creditable service, not to exceed a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree.

Disabled retirees are eligible to receive a maximum monthly credit of \$45.

Schedule F – Summary of Main Plan Provisions as Interpreted for Valuation Purposes (continued)

VIRGINIA SICKNESS AND DISABILITY PROGRAM

The following employees are eligible for VSDP benefits: full-time and part-time salaried state employees who are active members of the Virginia Retirement System (State), active members of the State Police Officers' Retirement System (SPORS), and active members of the Virginia Law Officers' Retirement System (VaLORS). Newly hired or appointed faculty of state universities of higher education in teaching, research or administrative positions who elect VRS as their retirement plan, may elect coverage under VSDP or any disability plan offered by the institution. If the institution does not offer an alternative disability plan, the faculty member is automatically covered under VSDP. Any eligible employee hired on or after July 1, 2009, shall not be eligible to receive VSDP long-term disability (LTD) benefits for non-work related disabilities prior to the completion of one continuous year of employment.

LTD benefits provide income replacement for members who become disabled and are unable to work for an extended period of time. LTD benefits begin at the expiration of the maximum period of short-term disability. While on long-term disability, members continue to accrue service as a VRS-covered member. LTD recipients are not considered employees of the Commonwealth of Virginia while they are on long-term disability.

Upon attaining the normal retirement age while on LTD, a member is required to retire. However, if the member becomes disabled within five years of the normal retirement age, they will be eligible, for up to five years, to receive VSDP LTD benefits, provided the member remains medically eligible. Once such member receives VSDP LTD benefits for five years, the member must retire.

Members are eligible to receive LTD benefits while working. Long-term disability-working status is in effect if members are able to work at least 20 hours a week, but are restricted from performing the full duties of their job or working a regular schedule. A member must have returned to work with modified duties while on short-term disability to be eligible for long-term disability-working status. The benefit will be adjusted by income or wages a member earns. During the first six months of long-term disability-working, the benefit amount will be adjusted by 60 percent of income or wages earned from employment. After the first six months of long-term disability-working, the benefit amount will be adjusted by 70 percent of income or wages earned from employment.

LTD benefits provide members with an income replacement of 60 percent of a member's pre-disability income, or 80 percent for a catastrophic condition. For valuation purposes, a 2.50% Cost of Living Adjustment (COLA) is assumed for participating Plan 1 members of State, SPORS and VaLORS. For participating Plan 2 and Hybrid Plan members of State, SPORS, and VaLORS, a 2.25% COLA is assumed for the purpose of this valuation. LTD recipients are also eligible for benefits under the Health Insurance Credit Program (HIC) and are eligible for benefits under the Group Life Insurance Program (GLI). The liability associated with HIC and GLI for LTD recipients is not included as a VSDP liability, and is valued under the actuarial valuation of the HIC and GLI plans.

The LTD benefit is adjusted by any payments received as a result of the same disability from wages and salary from employment. Wages and salary include income reported on W-2 forms and income from self-employment. During the first six months on long-term disability, the amount of the adjustment depends on the income replacement level under VSDP.

LTD benefits end if the member: is able to perform the full duties of their job without restrictions, leaves covered employment and takes a refund of their member contributions and interest in their member contribution account, applies for service retirement or reaches normal retirement age, or the member does not cooperate or comply with the requirements of VSDP.

The purpose of the long-term care (LTC) benefit under VSDP is to provide members financial assistance towards long-term care services needed as a result of a catastrophic illness, injury or aging. Specifically, the LTC benefit under VSDP provides a \$96 per day indemnity benefit to reimburse qualified nursing home and assisted living costs. Additional LTC benefits are provided for qualified home health care services (50% of the nursing home daily benefit amount), and informal care (25% of the nursing home daily benefit amount). LTC benefits are paid after a 90-day elimination period following a member's certification to be unable to perform two of six activities of

Schedule F –Summary of Main Plan Provisions as Interpreted for Valuation Purposes (continued)

VIRGINIA SICKNESS AND DISABILITY PROGRAM (continued)

daily living or having a severe cognitive impairment. LTC benefits are tax qualified under the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

The LTC benefit has a lifetime maximum benefit of \$70,080 based upon a two-year maximum coverage period with a \$96 daily benefit amount (DBA) paid for nursing home care. At VRS' discretion, the DBA may be increased for inflation every five years in the amount of 5%, compounded annually since the previous increase. Since the LTC benefit's inception, VRS has elected to increase the DBA once (December of 2007). As such, the valuation does not include a provision for increases to the DBA. If the LTC benefit policy is to provide increases at regular intervals, the resulting liability will be materially greater than the results presented (i.e., inflation increases are not assumed to be pre-funded).

While actively employed or receiving LTD benefits, a member receives coverage in the amount currently in place for the actively employed group. Upon termination of employment, a member has the option to port the amount of coverage current for the actively employed group by paying a premium based upon the member's age at entry into VSDP.

Schedule F – Summary of Main Plan Provisions as Interpreted for Valuation Purposes (continued)

VIRGINIA LOCAL DISABILITY PROGRAM

The VLDP provides disability benefits for those Hybrid Plan members of Teachers and Political Subdivisions (excluding members with enhanced hazardous duty coverage) that elect to participate in VLDP.

Long-term disability (LTD) benefits provide income replacement for members who become disabled and are unable to work for an extended period of time. LTD benefits begin at the expiration of the maximum period of short-term disability. While on long-term disability, members continue to accrue service as a VRS-covered member. LTD recipients are not considered employees of their associated employer group while they are on long-term disability.

In addition an income replacement benefit, disabled members participating in the Hybrid Plan may be eligible to receive a one percent employer contribution to their defined contribution account. To be eligible for the one percent mandatory employer contribution, a Hybrid Plan member must be permanently and totally disabled as defined in §22(e)(3) of the Internal Revenue Code (Social Security Definition of Disability).

Upon attaining the normal retirement age while on LTD, a member is required to retire. However, if the member becomes approved for supplemental disability benefits on or after age 60 they will be eligible to receive VLDP LTD benefits, provided the member remains medically eligible, based on the chart below:

Ages Approved for Supplemental Disability Benefits	Supplemental Disability Benefit Eligibility Period*
60 – 64	5 Years
65 – 68	To Age 70
69 and Older	1 Year

*Eligibility period includes short-term disability and long-term disability

Members are eligible to receive LTD benefits while working. Long-term disability-working status is in effect if members are able to work at least 20 hours a week, but are restricted from performing the full duties of their job or working a regular schedule. A member must have returned to work with modified duties while on short-term disability to be eligible for long-term disability-working status. The benefit will be adjusted by income or wages a member earns. During the first six months of long-term disability-working, the benefit amount will be adjusted by 60 percent of income or wages earned from employment. After the first six months of long-term disability-working, the benefit amount will be adjusted by 70 percent of income or wages earned from employment.

LTD benefits provide members with an income replacement of 60 percent of a member's pre-disability income, or 80 percent for a catastrophic condition. LTD recipients are also eligible for benefits under the Health Insurance Credit Program (HIC) and are eligible for benefits under the Group Life Insurance Program (GLI). The liability associated with HIC and GLI for LTD recipients is not included as a VLDP liability, and is valued under the actuarial valuation of the HIC and GLI plans.

The LTD benefit is adjusted by any payments received as a result of the same disability from wages and salary from employment. Wages and salary include income reported on W-2 forms and income from self-employment. During the first six months on long-term disability, the amount of the adjustment depends on the income replacement level under VLDP.

LTD benefits end if the member: is able to perform the full duties of their job without restrictions, leaves covered employment and takes a refund of their member contributions and interest in their member contribution account, applies for service retirement or reaches normal retirement age, or the member does not cooperate or comply with the requirements of VLDP.
